Hunting mishap takes life of local man

TIM ORAM

A 21 year old Wilberforce man died last Wednesday when he was shot by a hunting companion.

Timothy Kevin Oram died at 8:30 a.m. after he was apparently mistaken for a deer in a densely wooded area near Wilberforce.

Police say Oram and a companion, Michael F. Irvine, 26 also of Wilberforce, were hunting in a cedar swamp about one kilometre southwest of the hamlet when the incident occurred. The two were separated when Irvine caught a glimpse of something white. He fired one shot. The bullet struck Oram on the left side and exited on the right side, killing him instantly.

Coroner Dr. Harry Good of Haliburton pronounced Oram dead at the scene.

A post mortem was held Thursday at Peterborough Civic Hospital.

Oram was a former student at Haliburton Highlands Secondary School and a former player with the Haliburton Huskies Junior D hockey club.

This was the scene in front of the cenotaph in Haliburton, Sunday morning, as a large contingent of Legionnaires and local citizens paid tribute to the men

who died for Canada during the two world wars, and the Korean war. A service preceded by ceremony and a banquet was held at the Legion hall in the evening.

Anti noise by-law test case thrown out on a technicality

A decision on whether or not to re-lay charges of creating excessive noise against the Rockcliffe Hotel after the original charges were dismissed in court last week will be made at an Anson, Hindon and Minden council meeting Wednesday afternoon.

The charges were laid against Dave Willis, owner of the hotel, during the summer, under the Township's new excessive noise by-law. A week ago Tuesday, the judge dismissed the charges after Willis' lawyer, E.J.

Gardiner pointed out that the summons was improper. He said it had been prepared on a form used for traffic violations, and that charges resulting from by-laws could not be prepared on traffic forms. A longer and more detailed form should have been used, he said.

But Dick Schell, the by-law enforcement officer who issued the summons, said Tuesday that he "always" wrote summonses on the traffic forms because they were quicker and less costly to process. "I've used them

for four years, and there was never a problem before," Schell said he checked with other municipalities on their procedure, and found that they too used the traffic forms when issued by-law summonses.

"It took them a half an hour in court to decide whether the forms were right or wrong," said Schell. "The form has never been questioned before, and if the Justice of the Peace doesn't know, how can we (by-law enforcement officers) know?"

Fraser Rogers, lawyer for Anson, Hindon and Minden, said he could see "no question" against the case Gardiner presented, but said he

would write to council informing them what can be done on the matter. He said the township has six months to re-lay the charges.

Since the noise by-law has not been tested yet, Rogers said he felt the township "should pretty well give it a try." He said he was not sure on Monday "what council's position will be on the matter."

Reeve Sine Nesbitt said Tuesday that the decision to re-lay the charges actually rests with the complainant and the enforcement officer. "We just follow the law," said Nesbitt. "It's possible that council could direct

Parks Canada personnel will be moving out of their office in Haliburton Village soon into this ultra-modern solar-heated office and storage building. The large white plates on the roof of the structure are the solar panels. The building is located on the junction of Paradise Lake Road and Highway 121.

Eakins challenges government to develop long term strategy

Tourism agreement needed

The Province of Ontario should develop an agreement with the federal government designed to boost the travel industry and in so doing, improve Canada's balance of payments, according to Victoria Haliburton MPP John Eakins.

Speaking at a recent meeting of the Grey Bruce Travel Association, the opposition critic for industry and tourism outlined four major steps that could be taken to improve the tourist industry under such an agreement.

Eakins said the province should "develop long term strategies for the travel industry of Ontario by identifying trends, gaps and future directions (and by) conducting feasibility and opportunity studies." Included would be "resource inventories by geographic area and the formation of regional and community travel industry data banks."

The province should also "develop the institutional structure needed to co-ordinate travel industry associations" and should implement "training programmes in travel industry services for management and staff."

Third aspect of the agree-

ment would be the upgrading of "travel industry facilities and infrastructure in the target area." Eakins stressed the importance of making available "low interest or forgivable loans for new and expanded facilities such as resorts, motels and certain other areas."

Fourth major aspect of the agreement would centre on the creation or improvement and expansion of what he termed "major travel generators" in selected areas within the province. Included would be cultural centres, special interest parks, restored historic sites and settlements, and developed natural attractions.

"Under this plan we could develop Ontario's travel industry utilizing unexploited and new initiatives," Eakins said. "This would also generate very significant employment opportunities in this province."

The Victoria Haliburton MPP challenged the government to take the tourist industry seriously, and to indicate support for the industry by decreasing the amount of regulation to which it is subject and manipulating "the cost and availability of funding."

Eakins told the meeting that the opposition task force on the industry, which he chaired, found that individual tourist operators could be answerable to as many as 14 different ministries, "each of which didn't know what the other was requesting..." He advocated the formation of a separate Ministry of Tourism.

New Catholic church envisioned, campaign to raise \$70,000 begins

A fund raising campaign for the construction of a new Catholic church in Haliburton Village has begun.

Paul Morrisette, chairman of the building committee, said the project received the unanimous support of the local congregation at a meeting Sunday.

Initial target of the campaign is \$70,000, which the committee hopes can be raised over the next 12 months. No firm cost estimates for a new structure have been obtained, Morrisette said, but the group is "looking at

something in the neighbourhood of \$200,000."

Virtually all of that amount would have to be raised by the congregation, Morrisette said. Construction will not begin until the initial \$70,000 has been raised, and the rest of the cost would then be mortgaged.

"We're relying fairly heavily on our summer parishioners" who outnumber local church members five to one.

The twelve month deadline for the initial fund raising effort is "optimistic," the building committee chairman

said. A portion of the \$70,000 is expected to come in the form of donated labour for such things as pew construction.

No definite site for the new church has been established, Morrisette said, but the committee has "looked at the possibility of the existing site as well as other sites."

Parking is a problem at the present church on Victoria Street especially during the summer months and the committee is expected to take the problem into consideration in choosing a site for the new church.

Permit sought for further exploration of sites

Rare Earth impact will be minimal, report says

by Joe Banks

The reopening of uranium mines in Monmouth, Cardiff and Cavendish townships will have no significant impact on the social and natural environment around the sites, a preliminary report prepared by a consulting firm has determined.

The report, submitted in support of the Rare Earth Resources letter of application to the Atomic Energy Control Board for an Underground Exploration and Development Permit for the sites, outlines environmental and safety concerns, and how the company intends to deal with them. It was made public last week.

Rare Earth Resources, the company intending to reopen the site, had to complete the report before an exploration permit could be granted by the Board. The company's next step will be to prepare a final safety report of a Mine Facility Operating License (MFOL) to mine, and by radiometric ore sorting, reject waste material for the various ores.

The report details how reopening the mines would affect water, mammals, birds, fish, recreation, and the social economic situation in the site areas. The summary of the report states that "many aspects of the environment will not be significantly affected, largely because these sites are small and have been disturbed by previous mining operations and because it is situated in an area with a long mining history."

A major concern of municipal councils involved in the project has been the location of the final processing of the ore into uranium.

"Madawaska Mines Limited and Rare Earth Resources have agreed in principle that Madawaska will allow Rare Earth to utilize its excess capacity to mill its sorted ore and produce yellow cake which, in all intents, will be refined at Eldorado Nuclear," the report said.

It added that "one constraint" at the mill would be the location for the placing of uranium tailings. The company is consulting with "Dr. E.I. Rovinsky on the use of his thickened tailing technique to safely extend the tailing area at Madawaska Mine site." The results of the investigations will be outlined in the final safety report.

Phase 1 of the project, which is underway, has involved taking radiation survey readings of the roads, dumps and working areas surrounding the three sites.

Water sample surveys have been taken as well, and roads to the old workings have all been brushed out. Representative from Rare Earth Resources have already met with local municipal governments, and equipment has been obtained by the company to monitor the areas surrounding the sites. Further phases of the mine's development will depend upon whether the company is granted an underground exploration permit.

A health and safety program will be established for the mining employees and the surrounding environment, the report said, and five key radiation protection measures were detailed.

After lifting the covers off the shafts and removing the walls from the adit, the company will, according to the report, "employ good engineering practices for the maintenance of achievable standards, block off and mark all restricted areas allowing only access through gates, and where positive ventilation is not practical or possible radiation risks exist, personnel will be provided with protective equipment in

the form of masks."

The company also intends to implement "adequate production training and surveillance programs." Medical surveillance programs will be set up, including the Ontario government's chest examination and "an annual hearing test by a medical technician."

An environmental overview made up the second half of the report, and detailed some wildlife concerns involved in the reopening of the mines. The effect on the terrain, according to the report, will be "minimal" as the result of exploration and development around the sites. The only vegetation surrounding the shafts and adits is "second-growth scrub" since the trees were first removed when the mines were open in the 1950's.

Water quality samples were taken by the company during July and August. As of November 1, a monthly monitoring program for radium and uranium will take place at the outfall from each adit at the Halo site, on the shoreline of Halo Lake at the junction of the stream from the adit, and the outfall from Halo Lake itself.

At the Rare Earth #2 site, samples will be monitored from discharges from the adits, the shoreline of Lowry Lake where the adit discharge enters the lake, and the outfall from the lake.

The uranium content in the waters the report said, will change very little during the exploration stage.

"The small amount of water required for the drilling to secure the metallurgical

Cont'd. page 2

Slippery weather during a heavy snowfall last week caused this Bell Canada truck to skid off Highway 121 and roll over early last Thursday morning. The driver, Kenneth Lemay, was unharmed. Damage to the van is estimated at \$5,000.

Five crashes in five hours as wet snow blankets Highlands

Wet snow that blanketed the Highlands last Thursday morning contributed to five single vehicle accidents over a five hour period. No charges were laid in the mishaps, which resulted in a total of \$17,000 damage.

At 7 a.m., an eastbound Bell Canada van left Highway 121 near Haliburton Village and rolled over in the north ditch. Driver Kenneth Lemay, 35 of R.R. #2 Janetville escaped unharmed from the overturned vehicle.

Damage to the van was estimated at \$5000.

One hour later, a 1979 car left the old Bobcaygeon Road near Minden. Driver Jennifer Anderson, 18 of R.R. #2, Minden was southbound when the car entered the east ditch and rolled onto its side, coming to rest in a creek.

Damage to the car was estimated at \$2,500.

A 19 year old Haliburton woman escaped injury 50 minutes later when the van she was driving left Highway 530. Jody Ainsworth was eastbound when her vehicle entered the north ditch and rolled over. Damage was estimated at \$1,000. in the mishap.

At approximately the same time, a station wagon left Highway 35 near Minden and suffered \$1500. damage.

Driver Janine Kellett, 17 of RR #2 Minden was southbound when the vehicle left the roadway, entered the east ditch and struck a number of stones.

A 26 year old St. Louis, Missouri man escaped injury shortly after noon Thursday when the car he was driving left Highway 121 in Cardiff Township.

John J. Moynihan was northbound when his car left

the road and struck a rock cut on the west side of the highway. The vehicle spun around and struck the rock cut a second time before coming to a stop.

Damage to the car was estimated at \$7000.

A 35 year old RR 3 Fenwick man was charged with careless driving last Wednesday after his car left Little Kennis Drive and rolled over.

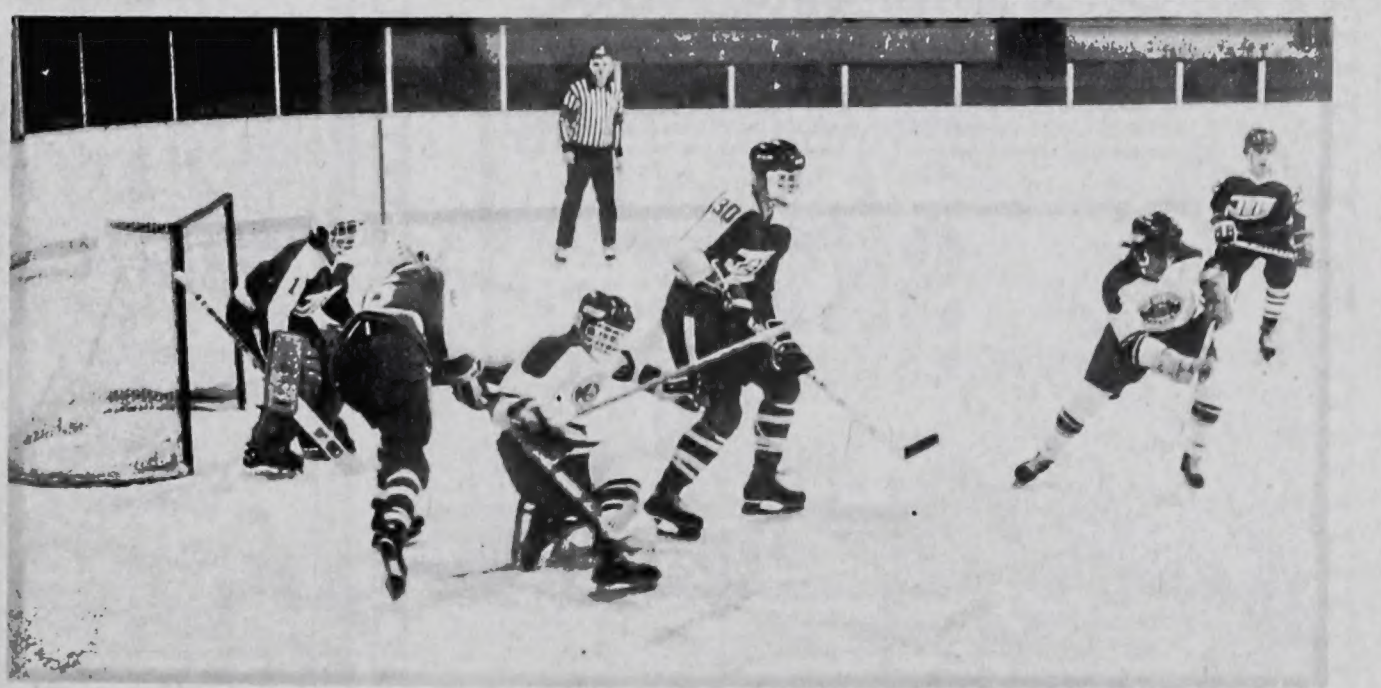

Terry D. Court was eastbound when his car left the road on a curve and overturned in the south ditch.

Damage to the 1979 car was estimated at \$13,000.

A 40 year old Guelph woman escaped injury last Friday when the car she was driving left Highway 121 south east of Minden.

Jean E. Allan was southbound when her vehicle entered the west ditch and

Cont'd. page 2

The Haliburton Huskies kicked off their opening game of the season Saturday night at the Dysart Arena, when they played against the Bancroft Jets. More than two

hundred turned out to cheer this year's squad on to their first victory of the year. For details of the game see page six.

Bulb company selling practice is questioned

Ontario Hydro does not endorse light bulbs sold by a Quebec based firm, despite claims made by at least one of the company's salesmen.

Eclair Tech Corporation of St. Laurent sells long life light bulbs over the telephone. A number of businesses in Haliburton County have received calls from the company recently, and one owner complained to the Chamber of Commerce about the company's selling practices.

The practice involves a preliminary call from someone claiming to represent Ontario Hydro, who tells the business person about the energy saving advantages of the long life bulbs. An Eclair Tech salesman then makes a followup call seeking an order for the company's line of bulbs.

Bob Stinson, Chamber manager, says a call to Ontario Hydro established that Hydro does not endorse the Eclair Tech product, and never makes calls to business people urging the use of long life bulbs.

A spokesman for Eclair Tech told the Chamber manager that the company has no knowledge of the calls purported to come from Hydro.

Stinson said the spokesman did not deny the calls could have been made, but said they must have come from an overzealous salesman without the company's permission.

Business people in the county should be wary of telephone solicitation, Stinson said, and should report questionable calls to the Chamber office.

Haliburton County residents experienced a different kind of scenery last week when several inches of snow accumulated across the region. It might look official, but the first day of winter isn't due to arrive until December 22.

MTC announces numbers for road condition queries

The Ministry of Transportation and Communications has announced that its Winter Road Reporting Service for the public will go into operation November 5.

The Road Information Centre at Toronto and the Ministry's district offices throughout the province have up-to-date information on the

condition of all provincial and secondary highways 24 hours a day, seven days a week during the winter months.

Information on winter road conditions in the area may be obtained around the clock by telephoning the Road Information Centre, Toronto (248-3561), Huntsville (789-4483) or Bancroft (332-3621).

Environmental impact of mine said 'minimal'

from page 1

sample, washing down faces or dust suppression will be pumped from Hall Lake and will return via the adit discharge." This will take place at both sites.

If the company continues with development, underground sumps will be established, and all mine discharges will be treated with sodium sulphate and barium

chloride, turning radium 226 into radium sulphate, a harmless chemical.

As for the potential habitat of deer and moose in the vicinity of the mines, the report says "because of the limited area being disturbed, it is unlikely that there will be any effect on local animal populations." Water course and the natural chemical make-up will not be altered, according to the report, making it unlikely "that there will be any impact on the aquatic species and animals that live in the area." Essentially the same was said about possible impacts on birds and fish.

Tourist-businesses in the townships need not worry, the report says, since the "recreation potential of the

areas immediately surrounding the mine site appears to be limited with the possible exception of ski-doo trails used by local clubs." Because of the rocky ground and poor soil, the report states that the area around the sites probably would not be suitable for recreational development. It says that there are no ski-doo trails or canoe routes on the mine sites.

During the exploration phase, the road to the Halo property which is considerably developed with cottages, will be used only by personnel travelling to and from work and the delivery of supplies.

"There will be no ore haulage during exploration or development." Details of how the road may be effected when production begins will be contained in the company's final safety report.

One of the most important sections of the report, which outlines the social and economic impact the mines would have on the area, is outlined in the final section.

"The general opinion of

residents in the area is interpreted as being in favour of the development of more mines in the Haliburton Bancroft area. Support for the development has been voiced by several organizations including the township councils of Cardiff and Monmouth."

The report says local businessmen are in favour of the development "because it means an increase in the volume of business to them

and a broadening of their economic base." Councils favour the reopening of the mine, says the report, since "any move to broaden the base of their economy is desirable."

The report stated the examination and development of the two mining properties will have a "minimal impact" on schools, hospitals or other municipal facilities. The initial examinations will require "about 15 persons." During

development, the work force would increase to approximately 65.

In the company's planned sequence of underground exploration and development, the Halo properties will be examined immediately after an exploration permit is obtained. Rare Earth #1 will be examined in 1980, and the Cavendish property will not be considered for underground exploration before 1981.

Noise by-law

from page 1

the by-law enforcement officer through a resolution, but the actual decision to re-lay the charge would not be within council's responsibility, said Nesbitt.

After Schell was advised Tuesday that the responsibility to re-lay the summons, rested with him and the complainant, he said that "as far as I'm concerned" the charges would be re-laid, but added that he would "talk it over" with the complainant and council before making any decision.

Man killed

from page 1

Police say the shooting remains under investigation, and that the crown attorney will be consulted to determine if charges should be laid.

Wet snow contributes to rash of accidents

from page 1

rolled over.

Damage was estimated at \$3,500.

Damage was estimated at \$7000 in another single vehicle accident Friday, this one near Gooderham.

A car driven by Guy D. Scott, 23 of Kinmount was westbound on Highway 503 when it entered the south ditch, striking a rock cut.

A 56 year old Mississauga man escaped injury Friday night when the pick up truck

he was driving struck the side of the Ingoldby bridge.

Gordon Arthur was southbound on County Road 3 at the time of the mishap. Damage to the vehicle he was driving was estimated at \$1000.

Damage was estimated at \$1500 in a single vehicle accident on Highway 648 Saturday night.

Lyle F. Plumley, 17, of Harcourt was westbound on Highway 648 west of county road 10 when his vehicle

entered the north ditch and struck a tree.

Plumley was charged with careless driving as a result of the mishap.

A 27 year old Haliburton woman suffered minor injuries when the pickup truck she was driving left County Road 3 Sunday afternoon.

Christina Donaldson was southbound when her truck rolled over on the southbound land and shoulder.

Damage was estimated at \$5000.

Deer kill rate said down 'slightly' as annual hunt ends

The statistics aren't in yet, but Ministry of Natural Resources spokesmen say the success rate for hunters during the annual deer hunt were "down slightly" in Haliburton County.

Eric Mitchell, Fish and Wildlife coordinator for the Minden office of the MNR, said Tuesday that even though the number of kills in the county have not been counted and tabulated yet, Conservation officers have generally noticed that the "success rate is slightly down." The officers say they haven't been seeing the numbers of deer they usually do.

Though Mitchell said he didn't know the exact reason for the decrease in sightings, the weather during last week could have affected the movement of deer. Under wet conditions, he said, deer will move to locations where they wouldn't normally be found, such as higher ground. Most hunting is done on lower ground, near common grazing fields.

Also during wet weather,

said Mitchell, tracking dogs would have greater problems finding the scent of deer, decreasing the hunter's chances. When snow falls, deer normally move to fields, but because the snow which fell last week was not extensive enough to affect the deer, there may have been fewer sightings near the fields where they would normally be found in snow.

"They may have started moving for the fields when last week's snow fell," said Mitchell.

Conservation officers have noticed a decrease in the number of hunters this season as well. Mitchell said this may be due to the gradual decline of deer population during the early part of the 1970's. During the last four or five years, said Mitchell, the population of deer has grown gradually, but hunters have been going outside the county for better hunting.

Mitchell said hunters wishing to hunt in the county "may have to change their hunting patterns" to prepare for varying movements of the deer.

Feasibility study for mine in Galway Cavendish starts

A feasibility study is underway to determine the viability of mining vermiculite in the Townships of Galway and Cavendish.

The study is being undertaken by a consulting firm for the Township, and was started about a month and a half ago. Art Chambers, a councillor with Galway/Cavendish council, said the study was started because "we want to assess the position we might take" with the mine. "We're not even sure if opening such a mine would be a viable operation, so we're finding out."

The land has been owned for five years by the Insulate Development Corporation, which has not made any proposals to council concerning the possible opening of the mine.

"There's really nothing going on right now," Chambers said. "We're in no different position than we were five years ago, with the exception of the feasibility study."

The study will determine how, if possible, the mineral

can be mined, at what expense, and any effects such a mine may have in the area. Chambers said the company doing the study is not sure of exactly when it would be finished.

"We're in no hurry. It just depends upon how long it takes."

The property of the proposed mine site is located on "four or five acres" of property between Catchacoma and Mississauga Lakes. Further "little pockets" of vermiculite exist on the eastern side of highway 503.

Chambers said he was unsure of the cost of the study, but compared it "roughly" to a \$3500 study on another matter which was recently completed for the township by a consulting firm. Chambers said he felt the study would be worth the cost since the township "is just looking at the site the same, as any business situation."

"We don't want to go into this thing by the seat of our pants."

Little Hawk fish edible, report says

Lake trout up to 22 inches long and smallmouth bass up to 12 inches long caught in Little Hawk Lake in Stanhope Township are suitable for unrestricted consumption, according to the Ministry of the Environment.

Lake trout over 22 inches long were found to fall into category "B" of the Ministry's guidelines, which means they can be eaten ten times a week for one week, or five times a week over a two

week period, four times a week over a three week period, or once a week if consumed over a long period of time.

Smallmouth bass over 12 inches long also fell into category "B", with the same recommended restrictions on consumption.

Women of childbearing age and children under 15 should eat only fish suitable for unrestricted consumption.

Allin S. Cooper, president of the Royal Canadian Legion, Branch 129 in Haliburton, salutes after placing a wreath at the cenotaph during Remembrance Day ceremonies held in Haliburton Village Sunday.

Refugees topic at social council

It could be a four month wait before the refugees scheduled to live in the area arrive here. This information was delivered by Joan Beck, a settlement consultant for the Ministry of Culture and Recreation working out of the Peterborough area. She was speaking at the October general meeting of the Haliburton County Social Planning Council held in the West Guilford Community Centre.

The assembly also heard detailed remarks by Alan Vallillee, area manager of Children's Services.

The public is always welcome to attend the general meetings of Social Planning in Haliburton County. The next one is scheduled for Wednesday, November 21, 9:30 a.m. at Dysart et al Municipal Chambers.

Tourism needs help, MPP says

from page 1

ism, realigning the present Industry and Tourism portfolio, "so that the best interests of the tourist sector might be properly served."

On the problem of funding for the industry, Eakins said one approach might be "to create one large agency similar to the federal export development corporation, which would specialize in lending to the tourist sector." The agency could employ experts in the tourist industry who could evaluate the potential of a given tourist proposal and decide whether a loan is feasible. The government should also consider a tax credit of about 30 percent for investment in the agency. (A 30 percent tax break is already in place for people investing in the Small Business Development Corporation).

The industry could also be aided through a seasonal tax credit for operators in business for only part of the year, Eakins said.

"It would be interesting if an analysis or study was made of what a municipality has to gain from a low taxed motel or hotel full of tourists spending their money in the community versus a highly taxed hotel operating at 40 percent occupancy. It is very possible the increased revenues generated in the community together with the

resulting increased employment would more than offset the reduction on taxes."

Eakins also advocated a reduction of the present ten percent tax on meals over \$6 to no more than seven percent, and a review of the legislation regarding statu-

tory holiday pay as it affects people employed in the tourist industry.

In conclusion, Eakins told the group that tourist associations "must be aggressive in putting (their) case before politicians and others in a position to recognize the importance of the tourist industry."

Organizations "must be aggressive in making sure that the tourist cow is not milked to death through excessive taxation and other areas because of a lack of profile and attention" he concluded.

Minden committee formed to aid Asian refugee children

Local efforts to assist refugees from Southeast Asia expanded in a new direction recently, with the formation of a Refugee Children Committee in Minden.

The committee will work to provide assistance for refugee children between the ages of 13 and 18.

A press release from the committee says the action has been taken "in response to a recent agreement between the federal and Ontario governments which stated that Ontario would allow 400 children from refugee camps in Southeast Asia to enter the province as foster children in the homes of Ontario residents."

Both levels of government have had to make a number of changes in their regulations governing foster children and

refugees, because these children are in a unique position, the committee said. Unlike the one year of responsibility accepted for sponsoring a family, this undertaking lasts until the children reach 18 years of age. The government has stated that the sponsored children are now 13 to 17 years of age.

The local group just formed will assist families applying for children in the initial settlement costs, pay a portion of the children's air fare to Canada, and will form a base for encouragement and adjustment to a new way of life. Although the government will monitor the home setting, it offers no financial assistance, the committee said.

The Refugee Children Committee has applied to

sponsor three children in the homes of two members of the committee. Anyone in the community wishing to give or receive assistance in this project is asked to contact a member of the committee. The executive includes G. Fred Loosemore, president; the Reverend David Barker, secretary; H. Lloyd Johnson, treasurer.

Donations can be made through the local Anglican or United Churches marked for the "Refugee Children Committee (Minden)."

Casting a critical eye

A preliminary safety report on the possible reopening of uranium mines in Monmouth and Cardiff Townships made public last week indicates that the reopening would have little impact on the environment of the area. While the news is encouraging to many people, including councils of the municipalities who would like to see the increased employment the mines would provide, it would be well to remember that the report was prepared by a consulting firm hired by Rare Earth Resources Limited. It was prepared in support of the company's application for a permit from the federal government to open the mine shafts to further exploration. As such, the report can be expected to downplay complications and take as positive a view as possible of the Rare Earth proposal. And it does.

The report notes that the mining sites are small, and that effects on the environment will therefore be minimal. It states that the sites were developed years ago and that re-opening them will require little new disturbance of the landscape.

Of prime concern to residents of the area is the processing of the ore extracted from the mines and the accommodation of tailings. The consultants' report stresses that processing of the ore into "yellow cake" will take place at the existing Madawaska Mines facility in Hastings County and that tailings would also remain at the Madawaska site.

A program to test water quality in nearby lakes and streams was included in the preliminary study to give base data that can be used in a water quality monitoring program. Water used in initial drilling for ore samples will return to area lakes, the report says, but little increase in the uranium content of the water is expected. If initial exploration shows the mines can be economically viable, the report says underground pumps will be established and all mine discharges will be treated to turn radioactive material into harmless chemical.

The results indicate that there will be few major problems involved in re opening the mines, but they are not sufficient to eliminate all concerns about the impact of the project on the surrounding area. Those concerns should remain in the mind of municipal governments and the public throughout the life of the Rare Earth project.

Past experience in other areas of the province has shown that complacency about the impact and potential dangers posed by mining and industrial development can lead to irreversible harm. No matter how it is handled, uranium is a potentially lethal substance that demands the strictest attention to safety measures.

Fortunately for all area residents, the uranium industry is closely monitored by the federal government. High standards will have to be met before the project can begin to operate.

The next step in the process is the granting of a mine facility operating licence by the federal government. That will require a more comprehensive environmental impact and safety study. The study may well indicate more problems with the proposed project than the preliminary report uncovered. Even if it does not, however, the public should not become complacent about the presence of a uranium mining operation in the county.

Careful and diligent monitoring by environmental experts as well as a healthy skepticism and ongoing concern on the part of the local councils and the public should go a long way toward ensuring that the Rare Earth project lives up to initial hopes.

A day in court

The first test of Anson, Hindon and Minden's noise control by-law ended inconclusively last week when the matter was thrown out of court on a technicality. The charges, against Rockcliffe Hotel owner Dave Willis, had been recorded on a form which the municipality's by-law enforcement officer has used for a number of years in laying charges for by-law offences. The form is in common use by other municipalities for the same purpose, but the judge sided with defense lawyer E.J. Gardiner's contention that the form was not the proper one, and the case was dismissed.

The option now rests with the original complainant to relay a complaint against the hotel owner under the provisions of the by-law. If that happens, the matter will go to court for a second time and the effectiveness of the by-law will again be called into question. While that matter would be an inconvenience for both parties, there is no doubt that the by-law deserves a court test, and that the charge should be laid again.

What is at stake is the public's right to peace and quiet. If the by-law has been properly drafted, and if the courts are prepared to enforce it, the public will be guaranteed the right to live in an environment free of excessive noise. If the by-law does not stand up in court, it will have to go back to the drawing board or be scrapped altogether.

Either way, it should have another chance in court, for the good of all concerned.

Letters to the Editor

To the Editor:

It was with regret that I read in the column "Eye on Sports" that you have decided not to mention sponsor's name when you write stories on individual hockey teams.

You state that it was never done in the past. Well, sir, that is misleading and erroneous, for years the Huskies were known as the Travelway's Huskies as indicated in the paper in 1978. The same applies to the midgets and any minor team that was fortunate enough to have a sponsor.

If you are that concerned that using the sponsors name in the story is commercializing the sports page, then maybe minor hockey officials should look around and take the same approach and maybe operate without sponsors.

The reasons that sponsors are a necessary part of minor hockey are monetary. Anyone who has been involved in minor hockey is well aware that minor hockey is not self sustaining. Oh, yes, it could be if registration fees were doubled, referees were abolished and the parents paid Maple Leaf Garden prices to see their child play. This is the sole reason sponsors are required.

On the other hand, why be a sponsor? The answer to that question can simply be one of the two reasons (1) the particular sponsor is making so much money that he requires a tax write off or (2) he or she is community minded. I hope that any sponsor in minor hockey has chosen to sponsor for the second reason only.

Minor hockey supplies organized competitive

hockey for 200 kids in our community. This is community minded. This is what it's all about and as a community minded newspaper I believe you could get involved by at least publishing the sponsors names in hockey stories. Your general manager recognizes individual clubs for participation in events around the county in his column, and rightfully so, as individuals, groups, etc. should be given the recognition they deserve or the criticism they warrant.

To prolong my attack on your article I would like to point out that if you do not want to commercialize the sports page then we probably won't be selling 13 ads on the sports calendar that was published in recent years in your paper, or there will be no commercialized Huskie supplement sponsored by local business as was the policy of your paper in the past.

In closing, sir, don't give a lame duck excuse for deleting sponsors names from sports stories. Nobody but nobody commercialized the sports page more than the Echo management itself.

I believe sponsors are doing a community service. Let's face it who is going to benefit from a sponsorship more than those boys who are wearing the blue and white of the local minor hockey system?

If what you advocate is your policy, fine, but no more lame duck excuses.

Sincerely,
Bill Davis,
Haliburton, Ontario.

Editor's Notebook

by Len Pizzev

This past weekend confirmed what I had already suspected but had tried not to admit. The annual ordeal has begun.

It was subtle at first. It started with over orchestrated Christmas carols oozing from muzak machines in all the city stores. It gathered momentum with the breaking out of decorations two months before the event. And now it is here in full force. It's time to wrack the brain and open the wallet in search of the perfect gift. Well, if not perfect, at least acceptable and affordable. After all, you can always take comfort in old saws, that it's better to give than to receive and that it's the thought that counts. In the ordeal of Christmas shopping, they are the props that help you carry on.

The trouble with Christmas shopping is two fold. In the first place you have to face the fact that you'll be buying gifts for people who already have everything, or the next thing to it. And in the second place, you have to face the fact that the things you'd like to give seldom cost less than \$30, and sometimes a lot more than that.

The world of manufacturing and marketing men has addressed itself to the first problem with a

vengeance. But on the second problem, it has left us on our own.

Every November, the shelves of stores begin to fill up with items that no one needs, but that can be turned into imposing parcels to sit under Christmas trees of the nation. How about a round plastic globe that splits into two halves and that includes a flimsy plastic handle with semi circular devices attached. It's perfect, they say, for making tossed salads (one at least before it breaks) and its a bargain at \$14.99. Or it could be that someone on your list needs a tiny rechargeable vacuum cleaner for sweeping crumbs off the table or five 'miracle' erasers that disintegrate in a matter of seconds as you rub.

If they don't appeal, there's one thing that surely will. For somewhere in the neighbourhood of ten dollars you can buy four coloured discs decorated with gold scrollwork. The package says they are just the thing "for hiding those unsightly burners when guests arrive." That's right. It's now been made official. Burners on electric stoves are "unsightly."

If wandering through aisles filled with those

Feir Play

by Creighton Feir

Well I am finally back at work following two weeks of being away from the newspaper business and during that period I had time to reflect on some of the good and bad things that are happening around this county of ours. One thing that I noticed and that is that the new Bank of Montreal building in Haliburton and the new Toronto Dominion Bank in Minden are both well underway and it shouldn't be too much longer before they will both be having their grand opening. It's good to see the Junior hockey season underway and it's certainly a pleasure to see that the Haliburton Huskies won their home opener against the Bancroft Jets at the arena in Haliburton on Saturday night. I was very disappointed in the fact that only a handful of people took the time to turn out for the Haliburton Kinsmen Club and Haliburton Figure Skating Club's first Skate-A-Thon. It was shocking news to hear of four breakins and incidents of vandalism which took place in the village of Haliburton recently. This was by far the worst act of vandalism in Haliburton's history and something should be done in the near future to make sure that the same thing doesn't happen in the future. The only answer seems to be to have someone on duty throughout the early hours of the morning, not driving around in a car, but on foot. Another sad note is the passing of Tim Oram a former hockey player with the Haliburton Huskies who was killed recently in a hunting accident.

Brian Devan of the Fenelon Falls Rotary Club was a recent speaker at the Minden Rotary Club. His message illustrated Rotary International's Health, Hunger and Humanity program. Through a slide presentation, he discussed the importance of continued support by all Rotarians to develop the significant program designed to improve health, alleviate hunger, or enhance the human and social development of people as a means of advancing international understanding, goodwill and peace. The Minden Rotary Club should be proud of the fact that they were the first club in our district to contribute to this fund, some months ago. While still on the subject of the Minden Rotary Club we note that the District Governor Aubrey Oldham will be paying his visit to the Minden club on December 3. Events and presentations are being planned for this special occasion. The club is striving for 100% attendance at this meeting.

The hunting season is over for another year here in Haliburton County and from some of the reports that have been circulating around these parts it seems that only a few deer were shot during this one week hunt. Some of the hunters stated that there seems to be plenty of deer in the vicinity and that it was surprising to note that the count seemed to be down. All hunters reported that they saw a large number of moose.

Here in Haliburton County where work is scarce for most months of the year we can ill afford to lose too many businesses. When a Haliburton lumber company was placed in receivership, resulting in the lay-off of nearly 50 of the business's employees it was a great shock to many people. One has to wonder where these people who were employed by Hyland Lumber will end up. Most of them will be unable to get work here in Haliburton County and will have to go to other centres for jobs. Just stop for a moment and think what an effect this will have on the economy in Haliburton County. We need more businesses that employ several people and we are in no position to lose any.

For the past several months local real estate salesmen have been saying that houses are just not moving here in Haliburton County. I thought that this was a general problem across the Dominion, but apparently not. In a recent write up in the Toronto Star they reported that despite a gloomy economic picture, a flight of money and manpower to the West and unprecedented high mortgage rates, 1979 will be a record year for house resales in the city of Toronto. The year "would appear to be a record year already in only 10 months," says John Shortall, president of the Toronto Real Estate Board.

Jim McEwan, president of McEwan Advertising Ltd. in Toronto will be the guest speaker when the Full Gospel Businessmen's Fellowship in Canada hold their monthly dinner meeting at the Royal Canadian Legion Hall in Haliburton this coming Friday evening, November 16, starting at 7:00 p.m. Mr. McEwan is serving as pastor of the Church of the Way, a charismatic, full Gospel fellowship in Whitby. He holds a B.A. degree in Theology and has invested years in the field of advertising and marketing. He has served over three years as a counsellor at the Christian Distress Centre in Toronto and he is continuing this ministry in greater depth. We look forward to his message and ministry at the November meeting.

I had a note from my good friend Tom Hodgson who is a member of the Rotary Club in Oshawa and he told me that their Rotary Exchange student has met Barry Devolin, the Haliburton Rotary Exchange Student in Holland. Tom and his wife Marie will be hosts for an Australian girl from January through to March, 1980.

Ron Stackhouse got his first goal of the early N.H.L. season on Saturday night. He scored the only Pittsburgh goal in a 6 to 1 defeat at the hands of the Boston Bruins.

Many thanks to my friend Guy Chipper from Toronto for forwarding to me the latest newsletter of the Metropolitan Silver Band from Toronto. It is very much appreciated.

Death, Bereavement and the Child will be the topic up for discussion when the Bay of Quinte Funeral Service Association (Continuing Education) hold a one day Seminar at Trent University in Peterborough on Thursday, November 22nd, 1979 from 9:00 a.m. - 4:30 p.m. Participants will be doctors, nurses and nursing assistants, clergy, educators, funeral directors, social workers, parents and the general public. Anyone interested in attending or would like more information please contact Mr. Gordon Monk at Minden.

Wilberforce OMHA registrations down, no teams organized

The Wilberforce Minor Hockey Association is having difficulty finding enough players to make up full teams this year, according to the Association's president.

"It's very hard for us to set up any kind of a schedule if we don't know how many players we're going to have," Glen Storey said last week.

"We've got to get people signed-up over the next few days."

Only 35 registrations have been received by the Association as of last Friday, and the league is scheduled to get underway this Saturday.

Storey believes parents registering their children "are holding off as long as possible" before having to pay the fee. "People show up when they're ready. They don't like to lay the cash down

right away," he said.

But parents need not pay the fee immediately upon registering the child, he stressed. "As long as the kids names are down," said Storey, the schedule for each individual team can be organized. The fees can be paid any time before the end of November. "People don't know just how important it is to get registered early. They think that you can just open the doors of the arena and away you go."

Finding coaches for the team has become a headache for the executive as well. As of Friday the only coaching staff for the Atom and Pee-wee teams have been found "for sure". Storey said he hopes more coaches will sign up as registrations increase.

Anyone who wishes to register can sign-up at Glen's Ten to Ten in Wilberforce.

Action around the Bancroft net was brisk in the Haliburton Huskies first game of the season, played at the Dysart Arena Saturday night. The Huskies won the game, 8 to 5. Here, Chris Hodgson attempts to centre the puck while being checked by two Bancroft players.

Busy week for minor hockey in Minden

It was a busy week for all the teams in the Minden Minor Hockey system last week, as the season finally got fully underway.

On Friday, November 9, the Atoms travelled to Manvers and beat the home team by a score of 4 to 0. Goal scorers were Tom MacLeod with two, and Shane Burch and Dwayne Cooper with one each. The boys, however, lost their next game to Little Britain by a score of 1 to 0 on Saturday night in Minden.

The Pee-wees also went to Manvers a week ago Monday to tie the squad at two. Scoring for Minden were Kevin Cowen from Greg Newell, and Paul Walker from Greg Newell. On Saturday in Minden, the boys tied at two points again when they met Bobcaygeon in Minden. Mike Gorveatt scored his first goal unassisted, and his second from John Ballantyne and Kevin Cowen.

The Minden Bantams lost their Monday night game in Manvers by a slim score of 2 to 1. Andy Shapiera scored Minden's lone goal. But on Saturday, the team took on Omecree on home ice, beating the visitors by a score of 3 to 2. Scorers for Minden included Tim Wood assisted by Scott Yake, Robbie MacLeod from Andy Shapiera, and Scott Hamilton from Doug Schell and Scott Yake.

The Midgets only had one game last week in Minden on Saturday night and tied with Omecree at three. For Minden, Ivan Ingram scored from Andy Pristol, Dave Lennie scored from Shaun Chapman and Rick Beene picked up one from Ivan Ingram and Kevin Shapiera.

The Minden Juveniles ended up winning two and losing one in their series of games last week. Last Wednesday, in Manvers, the team handily beat the hometowners by a score of 9 to 5. Shaun Silvers ended up with a hat trick, and Kim Hamilton finished the game with one goal and two assists. On Friday night in Minden the lads steamrolled Bobcaygeon by a score of 5 to 1. Tim Davies scored Minden's first goal from Ted Pilcher and Warren Mann, and Greg Carpenter scored next from Roger Hicks. Leo Booth picked one up from Ted Pilcher and Tim Davies, Kim Hamilton notched one unassisted, and Butch Manary scored from Dave Shapiera. But on Saturday night in Oakwood, the short-lived winning streak ended when the hometown boys took Minden by a score of 6 to 4.

On the next shift, Bernie Upton scored his first of two goals after being set up by Rae. The line of Vuksic, Smith and Mitchell put on a sharp display of passing with Smith scoring from his linemates.

Upton came out on his next shift and banged home a pretty goal, assisted by Barry Boice. With less than three minutes to go in the game, Mitchell completed his hat trick assisted again by big Smith. Twelve seconds later, Smith scored his record goal of the night to round off the Haliburton score at an even ten goals.

This Friday night, the teams travel to Woodville, but will be home on Friday, November 23 to play Bobcaygeon.

Haliburton Bantams continue scoring

by Doug Mitchell

The Haliburton OMHA Bantams went on a third period scoring spree to swamp Oakwood 10 to 1 last Friday night to keep their winning record intact at 4 and 0.

Kelly Mitchell opened the scoring for Haliburton after being expertly set up by Steve Smith. Four minutes later, Stan Brown scored his first of two goals on a nice passing play from Scott Rae.

In the second period, both teams traded goals with Brown putting home a Bernie Upton pass.

With the score 3 to 1 at the start of period three, Haliburton came out flying and within the first four minutes, they scored four goals. Paul Vuksic started it off quickly just ten seconds into the period on a smart passing play from Smith. Thirty seconds later, Mitchell intercepted an Oakwood pass at centre and went into beat the goalie unassisted.

On the next shift, Bernie Upton scored his first of two goals after being set up by Rae. The line of Vuksic, Smith and Mitchell put on a sharp display of passing with Smith scoring from his linemates.

Upton came out on his next shift and banged home a pretty goal, assisted by Barry Boice. With less than three minutes to go in the game, Mitchell completed his hat trick assisted again by big Smith. Twelve seconds later, Smith scored his record goal of the night to round off the Haliburton score at an even ten goals.

This Friday night, the teams travel to Woodville, but will be home on Friday, November 23 to play Bobcaygeon.

Matches played last Saturday, Sunday night

Jets, Chiefs attacks halted, Huskies win first two games

The Haliburton Huskies opened their regular season last weekend, and if the two games they won are any indication of what lay ahead for the Junior 'D' team, then they could be in for a highly successful season.

The squad defeated the Bancroft Jets Saturday night in their first game of the season by a score of 8 to 5, and followed up on Sunday night when they met Lake-

field, outscoring the home team 5 to 3.

Over 200 paying fans passed through the gates at the Dysart arena Saturday night to watch the Huskies do their best against Bancroft. A minute of silence was held before the game for former player Tim Oram, who was killed in a hunting accident last week. Haliburton scored the first goal of the game on a power-play advantage at the 13:34 mark when Kevin O'Hara and Chris Hodgson set-up Kevin Noseworthy.

Bancroft bounced back at 17:43 when they slid one past goalie Paul Beattie. The Jets followed up on the goal two minutes later at 19:36, making the score 2 to 1 at the end of the first.

The period, however, was not totally devoid of penalties. Steve Davies was thrown out of the game at 4:09 for instigating a fight, and Joe Roberts wound up with a 10 minute misconduct. They were the only two penalties the Huskies picked up in the period.

In the second, Dean Potter scored a well-played goal, with assistance on the play by captain Joe Roberts. Bancroft reciprocated at 11:40 by picking up another goal, but as a result of a penalty incurred by the Jets, Haliburton capitalized on the power play, and Dave Brown, assisted by Joe Roberts and

Jerry Campbell, marked up another. But the Jets had the last word of the period at 18:29, when they notched a goal.

The third period held a different story for the leading Jets, despite the power-play goal scored by the team at 3:25. A Huskies scoring spree followed with O'Hara leading the way. The first came at eight minutes on a power play, with O'Hara being set up by Joe Roberts and Hodgson. He scored his second goal of the game at 9:19, with assistance from Brown.

Joe Roberts fired one home at 9:34, backed up on the play by Bill Hogg and Mike Rae, and O'Hara capped off his strong game at 14:47 by scoring a hat trick, thanks to help from Brown. The clincher was at 15:39 of the third when Rae scored his first of the season, with back-up from Brian Lloyd and Hodgson. The final score; Haliburton, 8 and Bancroft, 5.

Penalties proved to be a problem for the Jets during the game. They picked up 12 to Haliburton's eight.

Sunday's game against Lakefield was a more physical contest however, with Haliburton incurring 22 minor penalties to Lakefield's 26. Haliburton led the scoring in the first period at 1:05 when Mike Rae scored the game opener, with back-up on the play by Joe Roberts and Steve Davies. The penalties severely hurt the Lakefield

team throughout the game, as every goal the Huskies scored from the second goal was on a power-play.

Dave Brown came up with a marker 23 seconds after Rae's goal, assisted by Davies and Ed Roberts. At 6:16 on a power play, Brian Lloyd increased the Huskies lead to three after Rae and Kevin Noseworthy set him up. Lakefield reciprocated by scoring at 16:16.

The second period saw the Huskies dominate play for the most part, and once again, on what had become an effective power-play, Davies socked one home assisted by Rae and Brown at 4:18. The game appeared out of reach for the Chiefs at 6:30 when Ed Roberts scored his first goal of the season, with help from Brown.

But the Huskies became complacent in the third period, and the Chiefs ended up scoring two goals at 16:07 and 5:31, the first coming on a power-play. But it was a case of too little too late, and the Huskies skated off the ice, winners by a score of 5 to 3.

Dave Brown is now the Huskies leading point-getter with nine points from two goals and five assists. Kevin O'Hara has seven points from three goals and one assist and Mike Rae has seven as well from two goals and three assists.

The Huskies play their next game at Bewdley tonight (Wednesday) at 8:15 p.m.

The Minden OMHA Bantams won their first game of the season Saturday evening at the Minden Community Centre, beating the squad from Omecree by a score of 3 to 2.

Floor hockey on this weekend

Preparations are underway for the second annual Lake Kashagawigamog Tourist Association sponsored floor hockey tournament scheduled for this weekend.

A girls division has been added to the tournament this year, and four teams will compete in this division. Six boys teams, including two from Haliburton will compete in the other divisions. Teams from Lakefield, Peterborough, Oshawa, Haliburton and Harper Creek, Michigan will take part in the tournament.

All games will be held at Haliburton Highlands Senior Elementary School. The tournament gets underway at 9 a.m. Saturday and will continue through to approximately 6 p.m. The championship game will be held Sunday morning beginning at 9 a.m. Admission is \$1. and the public is welcome.

Tournament organizers said this week that players have worked hard to prepare for the tournament and need fan support. The game is

exciting and fast moving, but the emphasis is on sportsmanship more than winning, organizers said.

Visiting players will be guests of families in the area, and while many people have volunteered to take in players, more homes are needed. Anyone interested in aiding the tournament in this way is asked to contact the Senior Elementary School at 457-2922 leaving name and phone number, or call Johnston Bailey at 457-1189 after 6 p.m.

Foster leads Wednesday bowlers

In the Wednesday afternoon bowling league of October 31, Pearl Foster led the bowlers with a 692 triple, and singles of 218, 266 and 208. Gord Bennett came up with 650, with singles of 160, 283 and 207.

Ray Knapp rolled a 647, with singles of 260, 175 and 212. Linda Morrison rolled 638, with singles of 185, 275 and 278. Bill Barber came up with a 626 for singles of 186, 183 and 257. Flo Henderson rolled 615, with singles of 198, 205 and 212 and Lil

Gorveatt came up with 609, singles of 169, 206 and 234. Single games over 200 were bowled by Betty Bennett with 219, Harry Henderson with 212, Debbie Allin with 211, Marylou Bird with 210 and Norma Hodgson with 200.

Last week, it was Linda Morrison who bowled the high triple of 654, ending up with singles of 171, 275 and 208. Lil Gorveatt came up with 617, rolling singles of 232 twice and 153. Bill Barber had a 613 triple with singles of 191, 223 and 199.

Non smokers bowling scores

The Easy Rollers still kept their lead with 29 points, although the Kleenaires were pressing and took five points off them, bringing the Kleen-

aires up to 23. The Nickyteens and Quitters are tied with 16. Wes Stata is still hitting them with 696 (276, 213); Mike Vuksic had a 605 (217, 200); Bob Webb had two nice

Haliburton Midgets defeat Oakwood, Woodville last week

On Tuesday night November 6, the Haliburton OMHA Midget squad ran up against tough opposition in the Oakwood Midgets.

At 4:41, Oakwood went ahead and held the lead until 12:52 of the second period when Ed Davis got Haliburton on the scoreboard with assists from Abbs and Nicholls. Oakwood went ahead again at the 10:07 mark, but at 8:22, Norm Barry (assisted by Nicholls) tied the game once again. At 5:29 Tony Scheffee gave the home team the lead for the first time in the game (assisted by Ed Davis).

Oakwood took the lead again with two quick goals coming at 4:22 and the 2:57 mark. However, Haliburton was not about to quit. At 1:54 Darren MacInnis scored on a perfect set up by Paul Madden and at 0:25 Dave Nicholls scored down from Glen Evans.

In the third period, the teams came out flying when at 10:21 MacInnis scored his second of the game from Scheffee. Oakwood gave it one last shot with a goal at 9:45, but Haliburton was quick to react with two quick goals with the first coming at 7:48 when Paul Madden scored with assists from Scheffee and Jim Lee and then at 6:55 when Nicholls rounded out the scoring from

Davis and Glen Evans to make the score final at 8-5 for Haliburton.

Saturday night the team travelled to Woodville where they ran into a rough and robust team. There was no scoring until with only 2 minutes and 50 seconds left in the first period, Haliburton exploded for four quick goals. Davis scored from Scheffee and Madden at 2:50. Only 29 seconds later Scheffee tallied with assists from Madden and Davis. Again 29 seconds later, Dave Nicholls scored unassisted his first of four goals for the night. Glen Evans rounded out the scoring for the first period from Barry and Nicholls.

At 11:20 of the second period Nicholls got another unassisted goal. Then at 9:24, Scheffee scored from Madden and Nicholls. Woodville then scored, robbing Dave Elstone of what might have been his first shut-out of the season, at 12:46 of the third period. Then at the 4:16 mark, Dave Nicholls scored from Scheffee for his first hat trick of the season. Nicholls again tallied at the 2:19 mark from Robbie Abbs and Davis to end the game 8-1.

The success of the Midget team thus far this season is attributed to the great team effort displayed by all the team members. To this date they have outscored the opposition 35 to 13.

Non smokers bowling

Also be sure to get signed up for the "Colt 45" Classic Tournament. It's for all bowlers with averages under 210, and the more entrants there are, the more prizes there are.

Don't forget to get your partner and get into the Mixed Couples Tournament on November 25. There are lots of lovely prizes donated by local businesses.

Congratulations to Barbara Adams for bowling the high single at Cobourg, in the Master-Junior Tournament and winning a lovely trophy.

SCORESHEET

Tri-County Peewee, played at Cannington on November 6, Haliburton vs. Cannington.

First period: Cannington scored first at the 9:04 mark. Haliburton got their first goal of the season with 41 seconds left in the period when Rob Thibadeau scored with an assist going to Chris Harrison. There were no penalties incurred by either team.

Second period: Cannington scored two goals in a row at the 8:10 mark and the 6:55 minute marks. Haliburton then scored three goals in succession at 4:54 by Eoin Finn, assisted by Darryl Tunall, Chris Harrison at 4:01 unassisted and Tunall unassisted at the 2:30 mark. There were no penalties incurred by either team.

Third period: Cannington tied the game at four when they scored at the 8:20 mark. Haliburton then scored two goals in a row, first at 5:18 by David Wood unassisted, and at 3:29 by Finn assisted by Tunall. Cannington scored the last goal of the game at the 2:03 mark.

Final score: Haliburton - 6, Cannington - 5.

Tri-County Bantam, played at Haliburton on November 3. Haliburton vs. Beaverton.

First period: Beaverton scored two goals at the 1:45 and two minute marks. No penalties were incurred by either team.

Second period: Beaverton scored, at the 9:55 mark. No penalties were incurred by either team.

Third period: Haliburton scored two goals in a row, the first at 12:44 by Charlie Teljeur assisted by Ricky Barnum, and the second at 11:13 by Barnum assisted by Mario De Paulo. Beaverton scored the final goal of the game with 25 seconds left. Haliburton incurred one penalty.

Final Score: Haliburton - 2, Beaverton - 4.

Tri-County Bantam, played at Haliburton on November 10. Haliburton vs. Bobcaygeon.

First period: Bobcaygeon scored first at the 0:21 mark. No penalties were incurred by either team.

Second period: Haliburton's Marla MacNaull scored at the 11:43 mark unassisted. Bobcaygeon scored at the 1:15 mark. Both teams incurred three penalties.

Third period: Haliburton scored two goals in a row, the first at the 6:27 mark by Mario De Paulo unassisted, and the second by Mike Baker with 40 seconds to go assisted by De Paulo.

Tri-County Novice, played at Haliburton on

Cont'd. page 12

A Minden OMHA Bantam player fires a slapshot at the Omeme goal at a game in Minden on Saturday. Minden went on to win the game 3 to 2.

Medcalf tops Combines

Bruce Medcalf Jr., lead the Tuesday Night Combines league with a high triple of 756, and singles of 187, 334 and 235. Bruce Medcalf Sr., was close to his son, but not close enough. He rolled a 729 with singles of 197, 257 and 275.

Ian Colman came up with 695, and singles of 1192, 272 and 231. Ken Beatty rolled a 648 with singles of 199, 164 and 285. Freida Colman

rolled 618 with 173, 248 and 197. Anne Baker rolled 617 and singles of 189, 226 and 153. Pearl Foster rolled a 601 with singles of 215, 198 and 188 and Bill Green came up with a 606, with singles of 137, 271 and 198.

High singles were bowled by Peggy Brown with 281, Rod Gorveatt with 247, Art Beatty with 244, Jim Foster with 229 and 206, and Dave McKinlay with 201.

SIR SAM'S INN

Along the Trails

by Roy Bates

The Hanover Snowmobile Club has adopted the temporary membership principle as a means to encourage residents of the area and patrons of area motels to make voluntary contributions to the club's trail maintenance program. This may be the first club in Ontario to adopt such a policy. I am sure it will not be the last.

It was some 19 months ago that the Ontario Federation of Snowmobile Clubs presented to the Ministry of Natural Resources and the Ministry of Transportation and Communication a comprehensive policy proposal built around the user pays concept. In that proposal it was recommended that the Motorized Snow Vehicles Act be amended to remove the inference that club-maintained public trails should be "free" trails; that clubs maintaining trails and having membership "open" to the public should be designated and registered as "public clubs"; that access to the trails provided by such clubs should be restricted to members of such clubs with full reciprocity between such clubs; that a short term membership fee structure (adilly or weekly or both) be adopted by such public clubs to accommodate occasional trail

users; and that legislation be written to support such trail policy and to provide a viable in-club policing formula.

It is noteworthy that the only parts of that proposal that actually required government action are, the first in regard to the interpretation of "Public Trail", and the latter in regard to policing authority. All of the rest concerns membership policy which the government does not, and should not attempt to

regulate.

It has long been recognized that the Ontario Government's current trails policy and club assistance funding program is not truly supportive of the club effort. By turning the trails of participating clubs into free riding opportunities for the general public, and by stressing development of connecting links and corridor routes to attract the snowmobiling tourist, the program actually discourages club growth and restricts a

club's ability to expand its trail effort.

Since trail assistance funding is designed to assist only, and now covers barely one-third of trail maintenance costs, clubs are being forced to adopt alternate funding formulas - or throw in the towel.

The Hanover Snowmobile Club is showing us the way to go. That club has taken the Federation's proposal and adopted it on a voluntary basis firmly believing that the majority of trail users will respond. And I, too, believe they will.

What is important here is that one club - and I hope there will be many more - has chosen not to wait for Gov-

ernment action and, faced with dwindling resources, has taken the measures which it sees as most reasonable to meet the club's immediate needs.

The proof of the pudding is in the eating. The Ontario Federation of Snowmobile Clubs welcomes this opportunity provided at Hanover to put its policy proposal to the acid test. I believe it will be a successful exercise. Not totally, perhaps, for the Hanover club will meet with a few un-responsive trail riders, but successful enough to show the Government that we do mean to get on with the business of developing snowmobile trails and to prove that the user pays principle, properly formulated, will work.

No new construction on trails, says club

No new trail construction will be done in the Paudash Trail Blazer's Snowmobile Club system this year, since there are no grants available from Canada Manpower, according to the club's newsletter.

The president of the club, Ross Lawrence said in the letter that the club's executive has "decided to maintain the trail system the same as last year." Volunteer labour will be used for the work.

Lawrence reported that the

club has cut a trail south of Eel's Lake, in an attempt to circle the shore. A project called "The Bridge on the River York" is also under construction by the club. Members hope to build a bridge across the York River, pending permission from private property owners and the Ministry of Natural Resources. If the project is successful, said Lawrence, it will be the only major addition to the 100 mile trail system.

Wilberforce Minor Hockey

announces this year's executive

The following is a list of the 1979/80 Wilberforce Minor Hockey executive.

Glen Storey is president, Vince Billings will act as the first vice president, and Ken Hopwood is the second vice-president. Chuck Irvine will act as third vice-president.

The post of treasurer will be held by George Waugh, and Gerry Waugh will assume the position of secretary. Jim Aldren will be the Association's convenor, Pearl Foster will take care of ways and means, and Wayne Rutter will be in charge of public relations.

COUNTY ECHO FAMILY

Extendicare News

by Dr. W.O. Anderson

Monday afternoon saw the making of four more cushions by our ladies Mrs. Alice Pogue, Mrs. Hazel Parish, Mrs. Maude Weston, and Mrs. Vera Griffin. They are doing a pretty good job of these and the cushions are well worth the price.

Mrs. June Devolin and associate, Mrs. Jean lies provided our bible study Tuesday morning, having as the theme, "We must forgive our debts, simply because Jesus promises to forgive us for our wrong doings." That will take some doing even in the matter of crime alone. It is contained in the Lord's prayer, and without doubt is the chief argument that our M.P.'s use when they vote to abolish the death penalty, and is what puts Christendom in a class vastly different to any other.

We had an unexpected treat when some mothers brought a group of play school tots to visit us, and entertain, putting on some of their favourite pantomime nursery rhymes, and holding their classes in our activity room, after being treated to some cookies. They were indeed a very intelligent group, just starting out to enjoy as much as possible a very interesting future ahead. The mothers who brought these children to visit with us and their stunts were Mrs. Caroline Bishop, Mrs. Jennifer Woods and Mrs. Sharon Skeeb.

The jigsaw puzzle mentioned awhile back is slowly going together, being worked on by all and sundry, but up to now the effort seems to lack the interest that was displayed last year. It has the two chances, day and night, but all of us residents are too fond of our sleep to work at night. Of course there is a complete night staff who occasionally do wonders. This puzzle is 28" x 21" a size that may be scaring puzzle solvers away.

We all are of the opinion that something phony is going on in Quebec; that what we read about it is far from being what it is. The people of that province are being constantly reminded of the historic battle of The Plains of Abraham, a battle which has a much different version in Quebec schools than in the rest of Canada, and which resulted in the ceding by France of the entire North American continent north of the Rio Grande to England at the peak of her prime. France reached her prime with Napoleon but by then Canada was lost to her.

We are reminded that we

were in error in the news of the 7th in our reporting of the visit of the Allsaw Gospel Singers as being Pentecostal. Further Miss Geraldine McNeil and Miss Wanda Lee McNeil were referred to as Mrs. and the two little girls were Michelle McKnight and Faith Wilson, not Ruth McKnight, and not Michelle. These are better not reported than to be in error for which we are very sorry, and promise to be more careful in the future.

A worthwhile celebration is coming Thursday, November 15, the date of birth of our Charlie Fader 100 years ago. As of now this man is hale, hearty and spry and will be sorry if you do not come to help him begin on his second century, and so it will be a toast to longevity for Charlie Fader.

It was a very welcome gesture for Mrs. Nancy Picard to give us the benefit of her musical talent Thursday evening. She, Jack Pollard and Jake Gill gave out a medley of many popular songs on the piano to Jack & Jake's harmonica accompaniment. It is too bad that more children are not given the extra nudge at the proper period at which they begin to learn the beauty and pleasure of some musical skill.

It is possible as stated on television that power hungry Ontario Hydro officials are considering scraping the bottom of the water power barrel to obtain as much energy as possible by developing the minor power sites in Ontario. The ultimate possible is stated as one million horse power which is a lot of horses. The Happy Gang would like to see it done.

Rev. Don Nicholson of the Haliburton United Church led

us in our devotional period Friday morning, and our Mrs. Flossie Burk acted as pianist for the singing. The theme "man does not live by bread alone," that is we must give due attention to our spiritual life. Jesus would not convert the stones into bread, probably because it would unduly stress the material. By the same token He spurned the devil on the promise of riches and power. Mary Currah poured the tea and coffee and served the cookies for the after service snack. We showed Rev. Nicholson our lone avocado seedling with a four inch sprout.

There were three movies Friday afternoon, 1. The flower and the hive, giving a brief outline of beekeeping. The honey bee is a most remarkable domestic creature, having somehow formed a partnership with her beekeeper as the best assurance of the survival of the species. It is doubted if the present report is a relatively recent development, but had its beginning many millennia ago, long before the cow, the horse, or the pig. And believe it or not, only the girls work. What a movie! 2. Green feathered sea, more particularly the breakers that are the homes of the great number of different creatures, having over millions of years adapted.

3. Octopus hunt, showing the unbelievable hazards of coming to grips with a living, angry octopus after they are found. Many world cultures enjoy the food they provide making the hunt worthwhile even if it is hazardous. This is one type of hunting that implies continuous working as a deep sea diver, coming aboard now and then to decompress. What a life! All geese mate for life.

Margaret Irish receives degree

Margaret Joan Irish of Haliburton was one of 190 students who received undergraduate degrees at the fall convocation of Trent University in Peterborough.

She received a Bachelor of Arts degree at the ceremonies.

Honorary degrees were

granted to three distinguished Canadians at the convocation. Awarded honorary Doctorates were F.R. Crawley, a distinguished film maker, Arnold C. Smith, former secretary of the Commonwealth, and Wilfred C. Smith, professor of comparative history of religion at Harvard University.

Three Haliburton residents honoured at graduation ceremonies in Toronto

Three local residents were among the students honoured recently at the 87th annual graduation ceremony of Shaw College held at the Royal York Hotel in Toronto.

Allison English of Haliburton received an honours diploma in the executive secretarial studies.

Sharon Lloyd of Haliburton also received the diploma for Executive Secretarial studies.

Lou-Ann English of Haliburton graduated with honours in Executive Secretarial studies.

addressed the graduates and 800 guests.

Located in Toronto, Shaw College was founded in 1892 and is one of the largest private co-educational colleges in Canada, offering courses oriented to careers in business and fashion.

Guild News

by Carole McLean

With growing concern for our economy foremost in our minds - combined with a determined effort to stretch the dollar, crafts have, over the last several years become a practical way in which to do just that. We are, as our forebears once did, again making our own gifts to exchange, not just at Christmas time but throughout the year as well. It is so much nicer to receive a gift someone has made, than one chosen from several replicas produced by machine.

For those not involved in crafts, the Guild holds three exhibitions and sales throughout the year, to show the work of local artisans as well as to supply the public with a wide choice of affordable crafts. It also acts as a drawing card to those who would like to become involved in a craft, as well as an advertisement on how and where this can be achieved.

"Christmas Show and Sale" On Tuesday, November 20, the first Christmas Show and Sale will be presented to the public at the New Rail's End Gallery. The show will run 10 a.m. - 4 p.m. each day until December 1st - except Sunday and on Fridays 10 a.m. - 9 p.m.

"A Special Thank You Invitation" If you have helped in anyway, you are invited to the Gallery on Wednesday, November 21 to an evening get together. Bill Hodge, presi-

dent of the Ontario Craft Council will give a slide presentation on the World Craft Conference held in Japan. This will be held at 7:30 p.m. and following this, we will serve sherry and fruit cake. This is your invitation! See you there.

Pottery Group There have been a few setbacks this year within the pottery workshop. The main ones have been mechanical, but I've been assured by Barb Bolin of Sir Sandford Fleming that they will be cleared up by November 19. The other has been the Glaze Master - namely myself. Hopefully this is one problem that will be alleviated this coming week. Ron Ray a renowned

potter has consented to hold a Glaze workshop.

This is of vital importance as I lack practical as well as trained experience in this field. So fellow potters, hang in there, things are bound to improve.

Weavers and Spinners This year the group has been studying colour and making a colour gamp. Julie Gray will be the speaker Monday evening, November 12 at 7:30 p.m. in the Gallery. Donna VanderWekken's Dye Workshop was a success and another is planned for the spring.

Yarns can be purchased from Margit Moraal in Blairhampton - 286-1882.

Senior League

by Linda English

We began the week at Hyland Crest with fun and fitness on Monday morning. We are very pleased to have Mrs. Jessie Walter, who is a new resident, enjoying our sessions. Mrs. Isabella Avery, won the dart game with a score of 280.

In the afternoon, the ladies went to the craft room to finish up their items for the bazaar. The bazaar is being held November 14 at 2:00 p.m. in the auditorium. We hope to have a good turn out as usual this year.

Rev. David Barker of the Anglican Church in Minden gave Communion in the Chapel on Tuesday morning. Mrs. Agnes Taylor played the organ for us while we sang some inspiring hymns.

In the afternoon, several residents went to the auditorium to watch the movies. Antarctic Crossing was a very good film taking us on an expedition to the South Pole. Huskies pulling sleds are the best means of travel, through

the vast land of ice and snow. There are bitter cold winds, and the temperatures drop from 60 degrees to 100 degrees below zero. We learned how difficult it is for modern man to make the journey, with all his new snow machinery. What a terrible journey Captain Scott and his men must have had when they successfully reached the South Pole in 1912.

Everyone enjoyed this movie very much. They said that seeing this film made them realize that our winters are not so bad after all. Set Down, Sit Danish was presented by the Danish Furniture Manufacturers. They showed us all the different styles of modern furniture and how it is made.

On Wednesday morning, Mr. Brown sat in our fun and fitness program. He joined in on the exercises, and was enthused with our new opening song. He asked me to pass it on to you. It is sung to the tune of "The Great Speckled Bird." Words were written

by yours truly. "Here we are once again at Fun and Fitness where we kick the ball and play a game or two in our home here at Hyland Crest in Minden. What a happy place to be for me and you."

We have a very enjoyable afternoon on Wednesday, when we were entertained by the Happy Wanderers from Cobocok. This group of people formed a choir about eight years ago, and have been coming to Hyland Crest, once or twice a year ever since. This was a special visit in honour of Lil Rawlins retirement. They presented her with a lovely gift, and they sang a special song to her, which one of the members had composed. We would like to share it with you.

Tune: The Happy Wanderers, by Ivy Boyce. 1. Yes, we are Happy Wanderers. To Minden Town we come,

DISTRICT NEWS

Norland Notebook

by Barbara Maunder

All members of township council were passed on Tuesday, November 6, at the regular monthly meeting. Council voted three to two in favour of requesting the Minister of Revenue to implement the final phase of Equalization of Assessment under the provisions of section 86, of Assessment Act R.S.O. 1970, for purpose of taxation in 1980. The petition of the town of Dunnville calling for regulations covering installation and cost sharing of automatic railway crossing signals was endorsed by members of council. At the request of Ted MacDonald re. Section 42 of By-law #15-79, the matter of repairing the bridges on west 1/4 line of Digby, was discussed and the Reeve is to contact Ministry of Natural Resources for permission to alter the drainage in the area. Lawrence Peel was given permission to trap on the waste disposal site property for 1979-80 season. A request for a grant from the Kawartha Tourist Association was refused at this time. By-law #17-79, to sell a portion of the 66 foot reserve along the Gull River was read three times and passed.

Norland Women's Institute members met in the W.I. Hall on Monday, November 5, at 7:45 p.m. The meeting's theme was citizenship and world affairs and the conveners were Mrs. Anna Verkerk and Mrs. Leona Fountain. After the opening ode, Mary Stewart collected, and Lord's prayer Mrs. Leona Fountain read the scripture, Psalm 93, followed by role call which was answered with a current event. The secretary, Mrs. Jean Stewart then read the minutes, treasurer's report and correspondence. Under new business, W.I. members decided to have a Christmas luncheon, bazaar and bake sale on Saturday, December 1 from 11:00 a.m. to 3:00 p.m. in Norland Community Hall. As part of the programme, Mrs. Anna Verkerk read an article on illiteracy and one from W.I. Home and Country booklet called "Remember". The December meeting is on Monday, December 3, in the W.I. Hall and new members are welcome to attend.

Recent Norland newsweds are Mrs. Pearl Eason and Mr. Russell Brohm. Our best wishes and congratulations to the happy couple.

'Tis the season of Christmas bazaars and bake sales and what a lovely way to do your shopping for gifts! Knox United Church, Cobocok invites you to their Christmas bazaar, bake sale and tea on Friday, November 23, from 2:00 to 4:00 p.m. in the church hall.

New Horizons, On-The-Move Club have planned their large display of Christmas crafts and gift ideas, tea and bake goods at the Cobocok Community Hall on Saturday, November 17, from 1:00 to 5:00 p.m.

Because of a conflict of dates, Burnt River United Church had to change the date of their rummage sale, bazaar and sale of baked goods in the Burnt River

Orange Hall from Saturday, November 10 to November 24. Same time 10:00 a.m. to 2:00 p.m.

Norland Red and White store owner's wife, Linda Purcell left last weekend (November 4) for a well deserved holiday in Scotland for two weeks.

Dave Graham was the lucky man who won the Fire-fighter's hockey pool on Saturday, November 3.

Mrs. Rudy Kreppner of the Village Wool and Craft Shop was delighted to have her daughter-in-law from Keswick call and tell her that she had been chosen Keswick's mother-in-law of the year. The daughter-in-law's wording of why Mrs. Kreppner was the perfect mother-in-law was chosen as the best in the contest and the Kreppners were honoured with their picture in the Keswick Chronicle and dinner at Stop 101 on highway 48.

The Happy Wanderers choral group enjoyed a special time on Wednesday, November 7 at Hyland Crest Senior Citizen's Home, Minden. During their afternoon program the choir sang their theme song with special words for the occasion composed by Mrs. Ivy Boyce to honour Mrs. Lillian Rawlins who retired last May as recreational director at Hyland Crest and is now doing volunteer work there. In recognition of her service at the home, Aunt Lil as she is

tendly known was presented with a leather wallet from the Happy Wanderers which had been hand tooled by the leather craft group of the New Horizons Club.

Wednesday, November 7 marked the ninth and final game of the first series of the Norland Bowling group. The first three teams were very close. Wanda Landry's team had 42 pts. and Rotha Bryant's and Michelle Angiers' 41 pts., Harry Smith - 36 pts., Mike McAllister 32 pts., Trent Watson - 23 pts., Jim Boyce and Peter Purcell - 18 pts. Ladies high single and triple - Michelle Angiers 226, 543 and high average - Wanda Landry 173. Men's high single and triple - Peter Purcell - 243, 693 and high average Mike McAllister - 201.

Ken and Marianne Bartley are pleased new parents with the safe arrival of their son born on October 23 in Kitchener - Waterloo Hospital. Proud grandparents are Earl and Doris Bartley. Happy wishes to all.

This is the last week for Norland Red and White store draw for free groceries and Mustang Ghia car. Mrs. Herb Schmidt had her grocery cash tape drawn on Saturday, November 3.

Kevin and Eunice Elliott visited Eunice's parents, Everett and Leona Fountain last weekend. It is nice to know that Kevin is feeling better and is now well enough to travel.

World War I and II veterans and Legionnaires made the annual march to the cenotaph from the Haliburton Legion on November 11 - Remembrance Day. The ceremonies culminated in a banquet held at the Legion Hall Sunday evening.

Carnarvon News

By Yvonne Penney

The 1979 hunt is over and we have lost another young life. Perhaps more instruction should be made mandatory in this country before one could obtain a license to hunt deer.

Barbara and Sandra Barnhart flew to Fredericton, N.B. this week to visit with Greg Bishop who is attending University there.

Congratulations to Wayne and Nelda Cully on the birth of their daughter Amber Lee. Sympathy of the community is extended to Mr. George Addy on the death of his wife.

Miss Gail Barnhart is spending some time in Peterborough with her sister Lynn, and is to be treated to a tour of the police station there where Lynn is employed.

There are too many cranks in this life and not enough self starters.

Laurie McKay spent the weekend here with her parents Mr. and Mrs. Max McKay. While Max was away deer hunting last week, he shot a huge timber wolf.

Many summer people have made a reappearance in the area because of the evacuation of Mississauga due to the derelict of several cars of explosive materials. They will spend their time here until it is safe for them to return to their homes.

Remembrance Day 1979 will certainly be remembered by the people of Mississauga. Students of Haliburton Highlands Secondary School are selling chocolate covered

almonds these days to further activities of the different clubs at the school. Please support them if one of the students approaches you to buy candy.

We are still without a leader for Girl Guides in Carnarvon. Is there anyone out there interested in this voluntary position? It is a very rewarding experience for the right person.

Mr. and Mrs. Wyman had a mishap with their car last week. I understand Mr. Wyman spent some time in the local hospital.

Glad to hear Belinda Brown is home from a stay in the hospital. Best wishes Belinda, hope to see you out real soon.

Tory Hill News

by Gloria Billings

The village was saddened to hear of the shooting death of Tim Oram during the hunting season. Our sympathy goes out to Wendy and the family.

Mr. and Mrs. Howard Anderson and Michelle visited in Mississauga over the weekend with Mr. and Mrs. Terry Stamp.

Mr. and Mrs. Arnold Stamp were weekend visitors with their daughter Valerie and Randy Foster of Rosemeath, Ontario.

A reminder - Everyone is welcome to attend the Monmouth Figure Skating Bazaar and tea to be held on Saturday, November 17, at the Lloyd Watson Memorial

Centre, Wilberforce. There will be a craft table, penny table, flea table and bake table, and a raffle on an atchman.

Miss Nancy Anderson of Peterborough spent the weekend with her parents Mr. and Mrs. R.H. Anderson.

Welcome home Mr. Sanitz after your visit with your family in Bangor, Penn., U.S.A.

Mr. and Mrs. Dave Lind of Brampton visited a few days with her parents Mr. and Mrs. Wally Marks.

Chatting with Irene

by Irene Moore

Hunting Season is over; Remembrance Day is over and November is nearly half gone! I think there were more unhappy hunters than happy ones and one the weekend all one heard was the weather was against us! It sure was, what with rain and snow and freezing rain, it is a wonder if there aren't a lot of colds floating around.

Remembrance Day wasn't too nice either so I stayed home and watched the service on T.V. Some of the young people interviewed were very interesting as to their comments and I do agree with them. They do not know enough Canadian history. That is one thing the schools are falling down on.

When our generation went to school we were taught to have great pride in this wonderful country of ours and we were taught its history right from the start, but how many young people or even a bit older know about the wars that were fought right here in the early years? Even now I enjoy exploring those early forts still to be seen across the country, even if I fall up the steps coming out of the block houses as I did last spring at Victoria. Oh sure I scratched my knees and hand but they didn't matter. What mattered was I had been through the old fort from start to finish and could visualize the past very vividly. Oh well, enough of that.

Mr. & Mrs. Phil Robinson had Mr. & Mrs. Leslie Robinson visiting them on Sunday. Did you hear the program on acid rain last week? Our county was mentioned many times during the discussion so it seems much more damaging to our area than most people had thought.

Her many friends will be glad to know that Miss Dora Dawson is out of the hospital, but is staying at present with Mrs. Wes Dawson in Petersborough.

Don't forget the Minden United Church Women are having their Christmas luncheon and bazaar at the

Church Hall this Friday, November 16, from 11:30 a.m. to 2:30 p.m.

Nora Hogg and Sheila Austen are home and back at work after their holiday in Jamaica.

Winners at the mini card party last week were: cribbage - Gladys Wruth, Cora Hewitt; euchre - lone hand - Jean Sears; Agnes Taylor, Mary McKelvey.

Mrs. Annie Kernohan is home after a weeks holiday with the Tom Parrish family in Willowdale.

Bring your own box when you visit the box clothing sale at the St. Paul's Parish Hall on Friday, November 23. The sale is from 1:30 p.m. to 3:30 p.m.

Miss Sandra Sears and the Paul Warburton's of Toronto, also the Glen Sears of Oshawa visited with Mr. and Mrs. Milt Sears over the weekend.

The annual dinner - dance sponsored by the Haliburton District Association for the Mentally Retarded will be held at Wig-a-Mog Inn on November 24, 1979. Proceeds will go towards the upkeep of the new residence in Haliburton. For tickets in Minden area please contact Mrs. G.M. Durant; 286-2422 or Wilf Jarvie 286-1713, in Haliburton - Don Popple 457-1150.

Mr. Gerald Coulter of Toronto spent the weekend with his parents Mr. and Mrs. Angus Coulter.

I have been listening with one ear as I write this, to the round table conference in Ottawa. The Premiers are not much closer to the energy crisis but the one thing I noticed and so did the news commentators and that was they presented a more or less solid front against Ontario Premier William Davis. This is one way for the people of

Canada to know what is going on.

Mr. Glenn Stamp of Oshawa and Glenda Stamp of Whitby spent the weekend in Minden.

The Minden and District Horticultural Society held their last meeting of 1979 in the form of a pot luck supper at St. Paul's Parish Hall on November 6. There was a very good attendance on a wet nasty night and close to 50 people enjoyed the fellowship of a pot luck meal.

The president called the meeting to order after the dinner and called on the vice presidents, treasurer and directors to sum up the year's activities summing up all at the conclusion with her address.

Mr. Richard Kirkwood conducted the election of officers with Mrs. Susan Sisson acting as secretary. The nominating committee had compiled a list of officers who were willing to act and after calling for more nominations from the floor Mr. Kirkwood declared the following officers elected for the year 1980:

President - Mrs. Elizabeth Carrell; 1st vice president - Mr. Amos Brubacher; 2nd vice president - Mrs. Gwen Cox. Directors - Elsie Sedore, Phil Graham, Ann Bibby, Bernice Gilles, Mr. Coleman, Pat Campbell, Beatrice Taylor, Laura Kirkwood, Irene Moore, Brian Sisson, Chris Postlethwaite. A film "Ruth Stout's Garden" was shown and name drawn for the table decorations.

The Society is hoping to take a bus to the Toronto flower show at the end of February or first part of March.

Meetings will resume in March or April.

Adios and take care now

Dorset News

by Phyllis Briscoe

"A successful man is one who earns more than his wife can spend. A successful woman is one who finds such a man."

Mr. and Mrs. J.S. DesJardins have returned home after a motor trip of several weeks to the west coast.

John Edwards is enjoying a visit with his mother, Mrs. Trix Edwards and his aunt, Miss May Lockman at their home in Dorset. John is a long way from his home in New Zealand.

We welcome home Reverend Murray Bradford who has been on vacation for the past few weeks. During his absence Canon J.F. Hinchliffe of Port Sydney, conducted services at St. Mary Magdalene.

A number of couples have left our wintry weather for the sunny south. Walt and Marion are headed for Key West, Len and Bea Seedhouse are on their way to Largo, Fla., and George and Margot are also going to have holiday in Largo. We hearty ones who stay here to face the elements mustn't envy them as it is our choice.

On Saturday, November 23 girls from the Dorset Guide, Brownie, Pathfinder and Ranger groups climbed on a bus and went to Bracebridge

to visit the residents at the Pines. The girls sang all their campfire songs, then gave out little remembrances (hand made) to each resident as they visited with them. Dorset would have been proud of the way these little girls sang so beautifully, spreading a little happiness to their audience. A thank you is extended to all the leaders who accompanied the girls on the trip. Afterward they went for a swim at the Centennial Pool and needless to say that was greatly enjoyed by all.

Wilberforce News

by Winnie Schofield

The recent Senior Citizen's Bazaar was well attended as crowds of people came to inspect and to buy from the well stocked tables. In a short time the bake table was emptied of its goodies while crafted goods and handknitted articles and miscellaneous items were quickly purchased by the visiting public. Members of the U.C.W. provided refreshments for the tea tables. These were served by smiling girl guides who looked very smart in their uniforms and provided very efficient service. In the late afternoon a number of draws took place and the winners announced were as follows: For five baskets of groceries Mrs. Gronberg of Wilberforce, First prize, Mrs. B. Stapley second prize, Mrs. Rowley of Highland Grove third prize, Marie Footitt of Harcourt fourth prize and Sylvia Tallman of Wilberforce fifth prize.

Mrs. Farr won the two dolls donated by Edith Daniels, Barbara Dunford won the glass flower vase and the lucky winner of the beautiful rug was Donna Burroughs of Harcourt.

Church service of the United Church is now being conducted in the Tory Hill church for the next few months. Time of worship each Sunday morning is at 11:30 a.m.

The A.C.W. of St. Margaret's church held their monthly meeting the first Wednesday of the month in the church basement. Two large quilts were tied. Prayer was conducted by President Eileen Agnew. The recent rummage sale saw many people taking advantage of good quality used clothing available. There remains many wearable articles plus recent arrivals. Those will be on display at a second rummage sale to take place later on in the month. Some of the people who were unable to attend the first sale will be able to take advantage of the next one.

Members of the Legion, Branch 624 were very busy while the hunters were with us. They held a Bingo Monday night, a turkey roll Wednesday night and a hunter's ball on Saturday evening.

On Sunday, November 11, the Legion members held a church parade at the Tory Hill United Church. The service

was conducted by Morris Bradley who gave a suitable remembrance day sermon. The choir sang some lovely old hymns and the congregation enjoyed the solemn service.

On November 17, there will be a bazaar and tea held in the Memorial Hall under the direction of the Figure Skating Club. There will be many interesting things to see, a bake table, flea market table, crafts and hand made gifts suitable for Christmas giving. A penny sale will be conducted and their will be raffles and other fun things to do. Come out and support your figure skating club.

The sympathy of the whole community goes out to the family of Tim Oram who lost his life in a hunting accident last week.

The poppy drive held on Saturday was very successful through the efforts of the legionnaires who gathered first thing in the morning at the Branch 624 Legion Hall. From there they branched out in several directions covering Harcourt, Wilberforce, Tory Hill and Essonville. Assisting the members in their canvass were members of the girl guides who provided much of the tedious leg work necessary in such a venture. Returning later to the Legion Hall all workers were given refreshments prepared by the ladies and consisting of hamburgers, hot dogs, chocolate milk and coffee.

We were sorry to hear of the sad news on the passing of Roy Elliot of Chalk River. Sincere sympathy is extended to the family.

OHC handing out 'play' booklets

Ontario Housing Corporation is distributing a brochure on "Play" as an International Year of the Child project aimed at persons interested in child development.

The year 1979 was proclaimed by the United Nations as the International Year of the Child in order that governments and individuals around the world would concern themselves with the present condition of their children.

The brochure prepared by OHC summarizes the type of play that children in various age groups can engage in and

Dennis Sims, right, secretary of the Haliburton District Lion's Club, presented a cheque for \$500 to the Haliburton County Chapter of the Canadian National Institute for the Blind recently. Ron Barr, Chairman of the Haliburton County Advisory Board for the C.N.I.B., accepted the cheque on behalf of the organization.

No resident licenses this year: Auld

A resident angling licence will not be instituted at this time, according to Natural Resources Minister James Auld.

During recent public discussions on the licence proposal, many interested organizations expressed support for a resident licence on condition that funds assigned to fisheries management be increased.

"Cabinet has decided after a full review of the Strategic Plan for Ontario Fisheries (SPOF) and the place of a resident angling licence in it,

that the institution of a licence was not warranted at this time," the minister said.

As for SPOF, it received \$2 million earlier this year to begin its multi-year fisheries improvement program, the minister said.

"Despite the climate of serious financial constraints which affect all ministries at this time, the government decided in June that SPOF would be funded. We may not yet have received as much as we would have liked, but the program's status as a high priority item has been

established," Auld said. "I am confident that some additional funding will be received for SPOF during the 1980-81 year."

The minister said SPOF, administered by his ministry, has already undertaken several projects in the five months since the initial funding was approved:

- Approximately \$500,000 has been spent to improve fisheries habitat. On the Credit River, the McCarthy Dam was removed to give spawning fish easier access to upstream beds, the fishway

at the Thornbury Dam was partially funded, the eel ladder at the Moses-Saunders Dam was operated, and wall-eye and rainbow trout habitats were improved or created on streams throughout the province.

- Four ministry regions in northern Ontario were allotted \$25,000 each to rent aircraft to improve enforcement capability in the north. Increased presence of conservation officers contributed to public understanding and

Hyland Crest

We hope your days will happy be.

With memories fond and true, The kindness you have lavished here, Will surely come to you.

We at Hyland Crest love Aunt Lil and miss her being here every day, but we're glad to have her with us on Mondays, when she works as a volunteer.

Thursday afternoon, the L.O.B.A. ladies from Minden served a lovely variety of goodies at the tea party. This is the one event that everyone takes part in and enjoys every

week.

Later, in the evening the Kinsmen were here to call the numbers for the weekly bingo game.

Friday afternoon Mrs. Grace Coburne led the sing song in the main lounge. Doris played the piano while we sang along.

Birthdays celebrated this week were Ada Alcorn on November 8, and Gladys Dennis November 10. Both these people were presented with a birthday cake and everyone joined together to sing happy birthday to those two special people.

Offer expires November 24, 1979. Limit: One per family.

Farm News and Views

When a new livestock barn is constructed, a small fortune and a lot of time is involved. Often when the building is nearly completed, and the money is all spent, one important part of the building is remembered - the ventilation system.

If this barn is going to provide the right environment for the livestock, the ventilation system is just as important as the building design. The lack of a good ventilation system can result in excessive drafts, high relative humidity, condensation on the interior walls and ceiling and poor odour removal. This situation ultimately results in health problems and even high livestock mortality - a very costly situation.

Four things are necessary to provide the best conditions in a controlled environment livestock building: Insulation: Unless the building is adequately insulated,

then the ventilation system will fail. If the walls are cold, the moisture produced by the animals will condense on the walls and ventilation fans cannot remove the moisture. Therefore, insulation of the walls and the ceiling is a must.

Air Inlets: The air inlet is the heart of every ventilation system and without proper air inlets, no ventilation system will work satisfactorily.

Their purpose is to introduce fresh air into the building, mix it with the air inside the building, and do this before this air comes in contact with animals. Remember, the inlet is responsible for providing good air movement throughout the barn - the fan is only the power source. A good air inlet must control the direction of air flow along the ceiling, especially in cold weather; be continuous so there are no dead spots or drafts; and be accurately

adjustable. Fans: Fans provide the power source for the ventilation system and must be sized properly, depending on the type, number and size of livestock being housed.

Fan capacity in cubic feet per minute (C.F.M.) should be used as a basis for selection - not the fan size. An capacity can vary greatly just by the number and pitch of the blades in the same size of fan.

C.F.M. ratings should be based on a minimum of 1/8" static pressure, not on free air

delivery. Static pressure is generally the situation the fans have to operate under in a barn.

Be sure the fans deliver their capacity through proper installation, outside hoods and a routine cleaning program of the fan motor, blades and louvers.

Controls: Every ventilation system must be properly equipped with adequate thermostats to insure a uniform temperature and good air movement. The thermostats should be located so they are never exposed to

direct sunlight; never exposed to heaters, coolers or electric lights; away from drafts; out of reach of livestock; and so they cannot be bumped by equipment or people, and they should be in direct contact with the air flow pattern in the barn.

The biggest problem with controls is that they are not kept clean.

Management is the key to the successful operation of any ventilation system and every ventilation system is only as good as the man who operates it.

Traction on ice without studs - and more!

The F32 All-Winter Radial is the tire that Goodyear built to take on the ravages of winter and get you through safely. It performs so well that we call it "The Ice Radial".

Why does this Ice Radial perform so well on icy roads? The secret is in the special rubber compound that stays "bendable" - even at below freezing temperatures - to conform to icy road surfaces.

This is Goodyear's finest traction tire, built tough with Flexten cord belts - pound for pound stronger than steel. It also has a unique tread design with hundreds of biting edges for traction on ice as well as in snow.

Get a pair of Goodyear Ice Radials for your car today, and drive with confidence.

Reid Road snow ploughing discussed at meeting of Galway/Cavendish council

At the most recent meeting of Galway Cavendish, the following matters were considered:

A Mrs. Trotter attended the meeting to discuss the maintenance of the Reid Road for the winter months. Her main concern was the early morning ploughing for the Reid Road to coincide with the school bus. Council informed Mrs. Trotter that her request would be referred to the Roads Committee with a request that it be dealt with by November 24. Mrs. Trotter was also invited to attend the Roads Committee meeting of November 23 to present her request personally.

General Voucher for the month of October in the amount of \$56,346.81 was approved for payment as presented, as were Roads Voucher for the month of October in the amount of \$12,207.52 and Welfare Voucher #8 for the month of October in the amount of \$475.44.

Minutes of the special roads committee meeting of October 19, 1979 were approved as presented with regard to tenders for construction of the Gold Lake Narrows Bridge.

All tenders received for construction of the Gold Lake Narrows Bridge, lot 27, concession 4, Cavendish Township, on October 9, 1979 were rejected and these tenders will be returned to the contractors along with all deposits submitted. The firm of Greer Galloway and Associates was authorized to call for tenders in February 1980 for the total project.

Tenders for the 1952 Jeep were opened at 12:05 hours. Tenders were received from: Ken Stuart, Kilmount 500; Norm Gilmore, Kilmount, 601.23; Lloyd Barry, Haliburton, 425.00; Gerard Pearson, Kilmount, 800.; Percy Traynor, Young's Point, 575.; Edward McKelvey, Minden, 560. and Herbert Fischer, Kilmount, 600.

Councillor Stuart declared a conflict of interest in the matter and below resolutions and removed himself from the meeting.

The tender for the 1952

jeep submitted by Gerard Pearson in the amount of \$800 was accepted.

Tenders for snowploughing in Cavendish for the 1979-80 winter, were opened at 12:15 p.m. Only one tender was received as follows: Ira Robertson, R.R. #1, Buckhorn, Ontario - \$22.00 per hour.

The tender submitted by Ira Robertson for the winter of 1979-80 snowploughing in Cavendish was accepted at the rate of \$22 per hour, subject to completion of a contract with the Municipality covering operating and communication procedure.

Jack Lyons attended the meeting to discuss with council a "Stop Work Order" that had been placed on his property. Lyons was informed that before a decision could be made, a completed building permit application must be submitted. The Building Inspector would then verify same and if it complied with the Zoning and Building By-laws, a building permit would be issued.

By-law to amend bylaw 78-43 was passed, this bylaw is to zone part of Concession 12, parts lot 28 and 29 Galway from OS to RR. The zoning of this property was done in error when the maps were prepared. The property belongs to Mr. & Mrs. Andrews.

The resolution from the Township of West Carleton covering the 1980 Equalization Factors for the Province of Ontario, received and tabled.

The resolution from the Town of Dunnville covering the installation of automatic signal devices at railway crossings, was also received and tabled.

The Townships of Galway and Cavendish will petition the Ministry of Transportation and Communications for subsidy payment from January 1, 1979 to October 31, 1979 in the amount of \$213,521.77.

The Roads Committee report of October 26, 1979 was accepted as presented.

The Health and Sanitation report was also accepted as presented.

Commission to review Bill 100

A three-man commission was appointed by Education Minister Bette Stephenson last week to review Bill 100, the legislation that gave teachers' the right to strike.

The commission, which has been asked to report by the spring, will be chaired by Dr. B.C. Matthews, President of Waterloo University. The other members are Dr. Rodrick Fraser of the Department of Economics, Queen's University and Dr. John Crispo of the Faculty of Management Studies, University of Toronto.

Dr. Stephenson said the commission has been asked to examine whether negotiations between school boards and teachers should continue on the existing basis or on some other basis. The com-

mission was also asked to consider the question of whether elementary and secondary teachers employed by the same board of education should negotiate separately or together. Also to be considered by the commission is who should be parties to negotiations and the manner in which the negotiations should be carried out.

In arriving at its recommendations the commission will take into consideration the results of a Ministry of Education internal review of Bill 100. The Commission will also seek submissions from the Ontario School Trustees' Council and its member associations, the Ontario Teachers' Federation and its affiliates, the Education Relations Commission, which

Principal's Newsletter

by Brian Mosgrove

Students at Haliburton Highlands Secondary School have an opportunity to compete athletically with schools in the area designated by O.F.S.A.A. (Ontario Federation of School Athletic Associations) as C.O.S.S.A. (Central Ontario Secondary School Athletics). This area includes schools from Whitby to Napanee and north to Bancroft and Haliburton.

Within C.O.S.S.A. Haliburton competes more specifically with schools in Kawartha District -- schools to the south and east in Lindsay, Fenelon Falls, Peterborough, Cobourg, Port Hope, Norwood and Campbellford. For sports where there are home-and-home games (girls' basketball and boys' football), league competition is organized between schools that are geographically close together. Therefore, Haliburton exchanges games with other schools in Kawartha West: I.E. Weldon, Lindsay Collegiate, Fenelon Falls and Brock.

For Kawartha District playoffs, a distinction is made between "A" schools (student population less than 750) and the larger "AA" schools in an attempt to balance competitive abilities. The other "A" schools in Kawartha are Norwood, Campbellford and Lakefield College.

Competition with other schools is available to the students in a variety of sports. The boys compete in junior and senior football and junior and senior volleyball. The girls compete in midget, junior and senior basketball and volleyball, field hockey and gymnastics. There are also teams for both boys and girls in track and field, archery, and junior and senior badminton.

Prior to each sports season, students are encouraged to attend open try-outs and teams are selected. In addition to athletic skill, the students must learn and exhibit several character building qualities. One of the most important of these is a sense of commitment and responsibility. Students selected for school teams must be willing to put team practices and games before other extra-curricular activities, and at the same time maintain

their curricular studies. This often means that they must decide to forgo other teams or clubs and maybe even after-school jobs. It also requires that they make arrangements to get home after practices and games, either by using the late bus or if this does not meet their needs, by some other method of transportation. Some of the sports run for a long season two to three months - and the student must be prepared to spend 3 to 4 nights a week with their sport. The coaches volunteer their time to work with the students to prepare them for competition. Team members must also learn to work well with others and be supportive of their teammates. They develop good sportsmanship through meeting and competing with students from other schools.

For students who are unable to be part of school teams, either because of lack of skill or difficulties in transportation, an intramural sports program is available during activity period. This program offers a variety of sports throughout the year and is run by Grade 12 Physical and Health Education students as a part of their course requirements for leadership.

To encourage participation and award excellence in both of these programs, an award system has been developed. This system gives the students an opportunity to earn silver or gold coloured seals, depending on the extent of participation. As a student accumulates seals, they become eligible for Minor and Major Athletic Awards which are engraved plaques. The award are purchased with funds raised by the students and are presented each year at what has become the Annual Athletic Banquet -- a fitting summary to a year of successes and failures; dedication and hard work.

In my mind both as an educator and a parent, high school athletics contribute greatly to the development and growth of our young people into mature, responsible citizens of society. Participation in sports gives students the opportunities to: acquire skills and knowledge for recreational activities in adulthood, develop leadership abilities, meet peers from other geographical areas and develop friendships with them, develop a sense of fair play, and develop a sense of camaraderie, trust and sociability with their peers at H.H.S.S. in a most positive environment under the guidance of teacher-coaches.

Ontario Hydro board set 1980 rates

Ontario Hydro's board of directors has set 1980 rates for three customer classes.

Wholesale rates to 334 municipal utilities will increase an average of 8.6 percent; rates to 101 large industries served directly by Hydro will increase 7.1 percent; and retail rates to 770,000 rural customers served directly by Hydro will increase 6.2 percent.

Hydro's wholesale rate proposal for utilities and industrial customers was the

subject of public hearings before the Ontario Energy Board this summer. The OEB is an Ontario government rate-review agency.

Hydro chairman, Hugh Macaulay noted that customers will see a higher effective rate increase next year than the official figures set by the board of directors, since rebates, under anti-inflation guidelines will no longer cushion the increases.

"In 1978 and by the end of this year, we will have rebated about \$250 million to our customers," he said.

The effective increase to municipal utilities will be about 16.4 percent; to direct customers about 14.8 percent and to rural customers about 10.6 percent.

The average annual increase for the three-year period 1978-1980 will be 9.3 percent for municipal utilities, 9.2 percent for direct customers and 7.6 percent for rural retail customers.

"Although the wholesale cost to the 334 municipal utilities has been announced, they will have to assess their

local financial positions before retail rates to their customers can be established," Macaulay said. "All local utilities have costs besides the purchase of power - although that is the major one - and of course they will have to take these into account in calculating their rates."

Each utility will announce its own retail rate for 1980. Macaulay noted that the final retail rate for 770,000 rural customers served di-

rectly by Hydro has been set.

A rural residential customer using 1,000 kilowatt hours a month and currently paying an average of \$38.49 a month will pay about \$42.25 more a month in 1980.

SSFC develops drillers course in Lindsay

Responding to the increased demand throughout Canadian industry for skilled, experienced drillers, Sir Sandford Fleming College's Frost Campus in Lindsay has developed a series of short, practical on-site courses in blasthole, exploration, geo-technical, and water well drilling.

Designed to encourage educational institutions and contracting firms to provide practical, hands-on training to their students and personnel, the new one week courses will allow participants to experience first-hand the actual conditions found at major drilling sites.

"We have all the necessary equipment on campus to provide useful and flexible custom-designed one week drilling courses," Frost Campus Resources Drilling

acceptance of fishing regulations.

New fisheries assessment units were created for Lake Nipigon and the Rideau Lakes and fisheries biologists assigned to them. Fisheries technicians were assigned to existing assessment units on Lake of the Woods and Lake St. Clair.

Fisheries management capability was improved by engaging four regional fisheries biologists who were assigned to northwestern, north central, northern and central regions.

At Main Office in Toronto, a fish culture production planner and a fish health specialist were appointed.

Still to come in the current year SPOF program is ap-

pointment of a systems biologist to help expand the fisheries information system, a fisheries economist, and a public involvement specialist to develop mechanisms for informing and involving the public and training staff in public awareness processes.

"I am confident that we are approaching the implementation of SPOF in a responsible manner both in terms of ensuring the ultimate success of the program and in providing for its adequate funding as it progresses," Auld said.

COX'S APPAREL

Stanhope Township council holds regular November meeting

At a meeting of Stanhope Township council November 1, the following matters were considered:

The proposed launching ramp on lot 12, con. 10 will be permitted only if there is 400' visibility both ways on the Hawk Lake Road and if the ramp will be open to the public. The decision will be reconsidered after the road is closed, if the conditions are not met. The motion is subject to the approval of the county.

Council acknowledged receipt of the Fire Chief's report for the month of October, 1979.

Council requested the Ministry of Transportation and Communications to do an engineering bridge appraisal study on the "Old Butter-milk Falls Bridge" off Highway 35.

Council acknowledged receipt of minutes of Community Centre Board meetings held September 27, 1979 and October 25, 1979 respectively.

Marvin Brown, James Harrison and Gerald Bain were authorized to negotiate price of crush with J. Stillie.

Council will petition the Ministry of Transportation and Communications for an interim payment of road subsidy on expenditure totalling \$182,436.05, made in accordance with the Public Transportation and Highway Improvement Act.

Council will request approval from county council for the proposed closing, stopping, up and conveying of that portion of an old Township Road situated in part lot

11, concession 9, Township of Stanhope and more particularly described as outlined in red on a plan or survey by Paul Wilson, O.L.S., dated October 25, 1979.

A donation of \$75. will be made to each of the four cemetery boards within the Township to financially aid in

the maintenance and upkeep of their respective cemeteries, council decided.

Council decided it has no objection to the construction of a boat house on part lot 9, concession 3 by Morton Whyte providing the neighbouring property owners a

gree.

The clerk was asked to inform Mrs. Sylvia Armstrong, that the present policy of council reflects the retention of all road allowances which grant access to water and therefore her request for the purchase of an allowance north of Lot 1, Plan 334, Part lot 5, concession 3 is

accordingly denied. However, the request will be kept on file for any future reference.

The Land Use Permit from the Ministry of Natural Resources for the garbage dump site will be renewed for the 1980 year and the required \$5 renewal fee will be forwarded to the Ministry of Natural

Resources.

Council agreed to adopt a policy relative to a proposed re-zoning amendment by laws which directs that any person applying for re-zoning for the purpose of creating new lots will firstly obtain the consent of the Land Division Committee for the severances desired prior to submission of a re-zoning appli-

cation.

Council authorized the expenditure of up to \$500 for the purpose of a Fire Department Christmas party for Senior Citizens and firefighter's children. This amount is to be charged to the Fire Department budget and is subject to the approval of the Fire Chief.

The annual remuneration

for council members as budgeted, authorized for payment.

General accounts totalling \$7,784.65; Road Voucher #10 totalling \$10,363.87 and October Welfare Voucher totalling \$765 were allowed for

payment.

By-laws 79-29 to prohibit the parking of motor vehicles on Municipal property and By-law 79-30 to appoint the Chief of the Stanhope Fire Department as building inspector were passed.

Recycle it! by Jane Selbie

If you could save 15 cents per week on your grocery shopping trip, in the course of one year it would amount to \$7.80. It all adds up and more than likely you could save much more if you got into the habit. How you say? Use your coupons.

One day I was behind a lady at the grocery check out and she put down a little wad of coupons which when rung up amounted to \$1.57. Now she did that every week she saves herself \$81.64 annually. That type of figure really makes sense!

Coupons are everywhere! In packages, in magazines, on cartons and from the mail. If you regularly save them for products that you generally use and keep them in your purse for on the spot use, you can take advantage of the discount

offered. The value usually varies from 7 cents to 40 cents off. The lower amounts may seem small but as you can see they all add up.

I suggest you make a folder for their storage. If you are in the habit of making a shopping list before you head for the store, match the coupons with your list and take the coupons required. Don't be embarrassed to hand them in - check out clerks are accustomed to their redemption.

Keep checking them regularly - some have time limitations. One idea is to clip all coupons and and those that you don't want may be useful to a friend or a relative. You often know the products they buy so you can keep an eye out for them as well.

Here are some ideas for your children received in the last contest.

Mrs. Mary Crosswell of Toronto who cottages near Minden sent an idea that she developed to help her visiting grandchildren enjoy their creative potential. She "took an old chest of drawers, removed the drawers replacing with shelves. Here she stores egg cartons, foam meat trays (which make beautiful "framed" pictures), cardboard tubes of all sizes, part rolls of wallpaper and giftwrap, bottle caps, scraps of material, lace, old Christmas cards, buttons; in fact anything I hate to throw out, and which looks as though it might be

useful for crafts. Along with construction paper, a few paper plates, crayons, marking pens, masking tape (easier to handle than Scotch tape) and glue. The possibilities are endless for an imaginative child to create all sorts of fascinating articles out of "junk"!

Hannah Moffat of Paisley, Ontario suggests 3 lb. Crisco tins are great for holding crayons, marbles, cards and checkers. That's just one suggestion of 17 uses she has for these tins! We'll mention more in the coming weeks.

Haliburton's Mary E. Robertson sent a blow-bubble solution recipe.

1/2 c. (1 ox.) liquid detergent.
1 tspn. white sugar
4 tbspn. glycerine
few drops of food colouring
Place in a quart bottle, fill balance with water and shake.

Obituary: Ronald Grant

Ronald Grant of Haliburton died suddenly in Toronto, on Monday, November 12, 1979 at the Northwestern Hospital.

He was well known in the Haliburton area and had made a host of friends since coming here from Toronto where he was very active in the business of B. Bernstein Ltd., right up until the time of his death.

Two of his favourite pastimes were fishing and snowmobiling and he was a very active member of the Hal-

burton and District Lions Club.

Surviving are his wife Betty, and sons Martin, Terry and Randall, brother Monty and father Max Brody. He was predeceased by his mother the late Winnifred Grant Brody.

He rested at the Benjamin's Park Memorial Chapel in Toronto where service was held on Wednesday, November 14 at 1 p.m. Interment at Beth Tzedec Memorial Park.

Drilling courses

from page 11

Co-ordinator Ron Morgan says, "These courses will allow firms and institutions to offer a practical introduction to drilling without the potential inconveniences that may be incurred through long-term training."

Among the equipment used by students are the Ingersoll Rand, Joy, and Gardner Denver 600 CFM compressors and air track drills for the blasthole drilling course, the

Longyear 24 and BBS-2 drills for exploration drilling, the Mobile Drill B-40 in the geotechnical drilling course and the Cable Tool-Bucyrus Erie Number 20.R drill in the water well program.

Each of the four courses will emphasize drilling safety and maintenance, and will also examine a number of bits used in drilling, sharpening, the various drilling methods, and rock and soil

testing. Most of the drilling exercises will be conducted at the college's Frost Campus or at the Standard Aggregates' quarry near Brechin, Ontario.

The Sir Sandford Fleming Resources Drilling program also operates a two-year post-secondary drilling and blasting program and a 13-week Canada Manpower-sponsored personnel upgrading program in drilling and blasting.

BIRTHS Please welcome Sean William Morgan Irvine, who made his debut November 9, 1979 to bring happiness to his proud parents, Bill & Brooke. 28-B-14 CULLY - Wayne and Nelda (nee Barry) are pleased to announce the arrival of their first born, a girl, Amber-Lee, Lynne, born 8:08, October 31, 1979 at Peterborough Civic Hospital weighing 7 lbs. 9 1/2 ounces. Proud grandparents and grandparent are Mr. & Mrs. Bob Barry of West Gullford, and Mrs. Madeline Cully of Tory Hill. Proud Aunt, twice in one year, is Marilyn Cully. A special thanks to Dr. Bos and nursing staff at Peterborough Civic and Dr. Heyes of Haliburton. 28-B-14 32. IN MEMORIAM COUMBS: In loving memory of our dear son Lyle who passed away suddenly Nov. 18, 1974. They say time heals all sorrow, And helps us to forget, But time has only proven, How much we miss you yet. Our hearts still ache with sadness, And secret tears still flow. What it meant to lose you Lyle, No one will ever know. Sadly missed by Mom & Dad. 32-P-14 NEIMANN: In loving memory of a dear wife, who passed away November 15, 1977. Two tired eyes are sleeping, Two willing hands are still, For one who suffered far too much Is resting in God's will. You never said goodbye to us, For perhaps it's just as well, We never could have said Goodbye, To one we loved so well. Ever remembered by husband, family and grandchildren. 32-P-14

Chamber

from page 5

do not recommend any specific make of lighting merchandise. A further call to the company in question eventually brought a response from their sales manager who apologized for any indiscretion that may have been shown by a member of his sales staff and he assured us that the above mentioned sales technique is not condoned by their company.

We thank this member for bringing this matter to our attention, and urge other members to do likewise if you feel uncomfortable about a product or the way in which it is being sold.

More Publicity from Harvey

When you are in Toronto on business it's nice to be able to pick up a paper and read something about home. Glen Hodgson found something when we were down at the Acid Rain Conference that we have passed along to the papers here of interest. Harvey Currell has written several "Town and Country Trips" columns about the Highlands in the Toronto Sun and we were very pleased to see this very complete article on the Rail's End Gallery and how to get to it. Thanks again, Harvey.

Winter Publicity

Winter business is rapidly growing in our area but it doesn't just happen. It is a result of a lot of work by many dedicated people who have helped develop facilities and events to attract visitors here in the winter. We have attempted to put as much of this information together as we could gather for our "Winter Book" which will be produced by the beginning of December this year. The Snowmobile Association have once again committed themselves to producing their very detail snowmobile map in a book form. The hockey tournaments which generate such an overwhelming amount of traffic on several weekends also require the support of advertisers and your support is appreciated. It may seem like there is getting to be too many things going on but -- just think back a few winters to how business was then -- We think it is well worth it -- and you can show you do too by supporting the organizers and their publications.

C.K.L.Y. Reporter O.K.

We are pleased to report that we received a card this week from Barbara Vali, the young reporter from C.K.L.Y. who after the Chamber annual meeting had a very serious accident with the C.K.L.Y. van. She is finally out of the hospital and resting comfortably at her parents home in Toronto. She expects to be back on the job in Lindsay in a few weeks and we are certainly pleased to hear she has made such a full and rapid recovery.
